**FEMALE VIET CONG TAGGED**

A young woman, suspected of being a Viet Cong terrorist, is bound and tagged by a United States Marine after a drive in the jungle area, north of Saigon. Other prisoners captured in advance look on sullenly as they await interrogation. Many Viet Cong reportedly defect after capture. Aerial dogfights headed today's news from the battlefronts. (See story this page).

## Satellite Changes Its Orbit

EL SEGUNDO, Calif. (AP)—One of two watchdog satellites to police the nuclear test ban treaty was put into a circular orbit 69,000 miles above earth early today, the U.S. Air Force said.

It was the first adjustment made after a Titan III rocket boosted the two Sentry satellites and three data-gathering satellites into orbit early Friday in a launch from Cape Kennedy. A spokesman at the air force's space systems division in El Segundo said the second nuclear-detection craft would be commanded into the same circular orbit in 48 hours from the satellite control facility at Sunnyvale, Calif. It will wind up on the opposite side of the earth from the first.

The Titan booster put the \$20,000,000, five-satellite payload into an elliptical path ranging from 5,370 to 69,150 miles. The three scientific satellites remain in that elliptical orbit.

**DO POLICE WORK**  
The two nuclear-detection devices, called Velas, are to watch for violations of the limited nuclear test ban treaty signed in 1963 by the United States, the Soviet Union and more than 100 other countries. The pact forbids nuclear tests in the atmosphere, in space and under water, but allows underground blasts.

Scientists say the Velas can detect nuclear blasts in earth's atmosphere and in deep space—perhaps as far away as Mars. Six other Velas are orbiting, but officials say the two new Velas are more reliable. The new satellites are to start functioning May 7.

## U.K. 'Pirate' Captured

COPENHAGEN (Reuters)—An Icelandic Coast Guard ship today captured a British trawler which fled from Reykjavik harbor after being arrested on illegal fishing charges. The Reykjavik correspondent of the Danish Ritzau news agency said the trawler Brandur of Grimsby, England, was caught 11 hours after it fled from Reykjavik, carrying with it a guard of two unarmed Icelandic policemen. The Brandur was caught 43 miles west of the Snæfellsnes Peninsula, western Iceland, Ritzau said.

## Expo Braces For Big Rush

MONTREAL (CP)—Expo 67 today braced for a mammoth surge of weekend visitors as first-day crowds at the big fair exceeded officials' wildest expectations.

The happy crowds that streamed through the turnstiles from Friday's 9:30 a.m. opening kept coming until well after dark when the last available count had been made. It totalled 310,000 visitors. The original estimate of first-day visitors was 119,700.

Brilliant sunshine and 55-degree weather, with light winds played a part in the large weekend crowd. With continued good weather the original estimate of 239,000 for today is likely to be also exceeded.

Even the figure given out Friday night by fair public relations officials probably was low because the electronic mechanism for keeping track of visitors broke down and the fair had to rely largely on head-counting.

The fair, formally opened by Governor-General Roland Michener Thursday, began its first public day in a blaze of rockets and bombs.

**Visitors Find Major Fault - Food And Beer Too Costly**

MONTREAL (CP)—The thousands of first-day visitors to Expo have found a major complaint—food and beer prices are too high. Expo officials admit that "a lot of adjustments are needed across the site in prices, services, quality and size of portions."

Maurice Novek, head of the restaurants operating at the fair, said part of the trouble is that food services are not ready to meet the demands placed upon them.

At a ceremony at Place d'Acceuil, one of the four fair gates, Philippe G. Gaspard Beaubien became a sort of mayor of the \$650,000,000 fair city. Boss builder Edward Churchill handed him the keys to the project and Mr. de Gaspard Beaubien accepted them as director of operations.

The day had its hitches. First, seven United States anti-war demonstrators, their shirts emblazoned with slogans, entered the goddes dome of the U.S. pavilion and promptly sat down. Watched by police, they made no overt move that could cause them to be ejected.

Pavilion officials offered them chairs and soft drinks as three more demonstrators joined the original group. They remained in the pavilion foyer until it closed at 9:30 p.m. and then left peacefully.

The other hitch caused far more worry. The Gyrotron, a \$2,000,000 ride at La Ronde, broke down in mid-operation and auxiliary power had to be used to take out trapped passengers.

For most didn't realize that there's a 12 per cent service charge—in lieu of the tip—on every item they buy as well as the eight-per-cent Quebec provincial sales tax. This means that a litre stein of German draft beer—about 1 1/2 pints—really costs \$3.30 although it's listed on the menu at \$2.75.

## Union Rivals Will Merge

TORONTO (CP)—Canadian branches of the United Steelworkers of America (CIO-CLC) and the International Union of Mine, Mill and Smelter Workers (I.M.S.W.), bitter rivals for 18 years, will be amalgamated July 1 under terms of an agreement promulgated here today.

The combined union, to be known by the Steelworkers' name, will represent almost 150,000 workers—some 54,000 of them in the non-ferrous metal industry.

## EIGHT HOURS SLEEP SOUND SO BETTER PLAN ON NINE . . .

If you plan to get eight hours sleep tonight you had better plan to get nine. But don't worry, you need only seven to get eight at the end of October. That's right, daylight saving time begins Sunday in most sections of B.C. Clocks should be turned ahead one hour before retiring Saturday night. The official time for the change is 2 a.m., when it really becomes 3 a.m. A good rule for those who can't remember which way to adjust their clocks: spring forward and fall back. The change remains in effect until the last Sunday in October.

## Peachland Mine Seeking Pledge On Tax Proposal

Brenda Mines officials are confident the federal government will not let the Carter tax proposals hamper development plans for the \$60,000,000 mining operation near Peachland.

M. E. Davis, vice-president of finance for Brenda, told The Daily Courier today a brief will be submitted to Finance Minister Sharp within the next two weeks. He said he had been in Ottawa last week with other company officials, seeking assurance from the government that if the Carter proposals were implemented within the next year and one-half before the mine got into production, the company would have protection under the old tax rules.

"We need that assurance before we start," Mr. Davis said, "and we are confident an agreement can be reached. The government is not going to let an investment of this size be lost to the Okanagan and particularly to the Okanagan, a designated area."

The Carter commission recommended that mines lose the depletion allowances now granted them—equal to one-third of their operating profits—as well as the three-year tax-free period now given new mines. R. V. Porritt, president of Noranda Mines Ltd., was quoted Friday as saying in Toronto, "implementation of the Carter report would render Brenda uneconomic and that Noranda's participation must be contingent on the government's policy regarding the report."

The giant mining corporation reached an agreement last year with Brenda, in which it would have been entitled to an interest. A feasibility study showed it could have been put into production at a cost of almost \$60,000,000. Mr. Porritt said. Mr. Davis said the Carter commission has been four and one-half years in the preparation and is only a recommendation. He said the government has had it for only two months and some time must elapse before a policy statement can be expected. Meanwhile, the finance minister has asked Brenda to submit a brief.

Meantime work is going ahead at Brenda," Mr. Davis said. "We are confident an agreement can be reached."

B. C. Breynelsen, Brenda's president, was quoted as saying he was confident Brenda would get the necessary assurances from the government.

"Given minimum assurances from the government of Canada, work will begin almost immediately on construction of a 24,000-ton mill on the Brenda property."

**Greece's Military Rulers Take Time For Consolidation**

ATHENS (Reuters)—Greece's new military rulers today continued to consolidate their position at home and abroad while Orthodox Greeks prepared to celebrate Easter Sunday.

Friday night, accompanied by a heavy police guard, members of the government took part in the traditional torchlight ceremony marking the Greek Orthodox Church Good Friday.

Only about one-third of the usual number of onlookers were present, but a torrential shower an hour before the parade may have been responsible for the poor attendance.

Earlier in the day, the new government was busy mending diplomatic fences and allowed journalists to visit several opposition leaders arrested when the regime came to power in a coup eight days ago.

The U.S. and British embassies were willing to resume normal business with the government in view of King Constantine's apparent grudging acceptance of the regime, informed sources said.

The regime squashed rumors that Manolis Glezos, Communist leader and resistance hero, was condemned to death and was scheduled to die Friday morning.

Interior Minister Brig. Stylianos Patoukos denied anyone was under sentence of death and declared: "There are no murderers among us."

A party of Greek journalists was taken to see Glezos, arrested when the army seized power.

**NEWS IN A MINUTE**  
**Boy, 14, Held In Slaying Of Two Sisters**  
DETROIT (AP)—A 14-year-old boy was held and was to be questioned today in the slaying of two young sisters in a field near their suburban Westland home. Police Chief Garrison Clayton said the boy was being held as a runaway.

**Tear Gas Breaks Up Malaysia Protest**  
KUALA LUMPUR, Malaysia (Reuters)—Police today opened fire with tear gas to break up an anti-government demonstration in the city's main street and sent shoppers staggering home with tears streaming down their faces.

**Rescuers Cut Tunnel To Save Six Miners**  
PRAGUE (AP)—Six Czechoslovak miners, trapped since Wednesday night, were freed today. The Czechoslovak underground at the Zofia coal mine in the Ostrava region news agency reported. The rescue workers cut a tunnel through 52 feet of rock to reach them.

**Canadian Soldier Killed In Germany**  
KITCHENER, Ont. (CP)—Private Ronald Padereski, 20, of Kitchener was killed in a car accident in West Germany. Mr. and Mrs. Joseph Padereski were notified today.

# Snow Paralysis Grips S. Alberta

LETHBRIDGE (CP)—Civic and government officials expressed concern today over the second major blizzard to hit this area in the last 10 days. More than three feet of snow had fallen to 11 a.m. today since 7:30 p.m. Thursday—and the storm is not expected to start letting up before Sunday.

Mayor Frank Shorting called an emergency meeting of council to plan strategy to deal with the effects of the storm which has virtually stopped all traffic in and out of the city.

Calgary has offered use of its snow removal equipment—but Lethbridge officials do not know how to transport it south. All highways leading into this city were clogged by snow and scores of stuck vehicles.

Train tracks also were covered but a CPR train rescued 30 adult motorists stranded since 9:30 Friday night 19 miles north of here near Stirling. The motorists, all in good condition, were brought here.

All air service was cancelled. Agriculture Minister Harry Strom described Lethbridge as a "snow paralyzed region" and said the Alberta government was standing by to offer any assistance needed.

An expectant mother first reported stranded between her rural home and hospital in Taber, 40 miles east, was found early today by searchers. Mrs. Tom Baccala was taken to the home of friends in Taber.

Meanwhile radio station CJOC was continuing to broadcast emergency messages on a 24-hour basis, but station CHEC has been off the air since 9 p.m. Friday because of difficulties at its transmitter, 15 miles from the city. Local crews could not reach the transmitter.

The storm, driven by 50-mile-an-hour winds, struck an area from the Crownst Pass in the Rockies to Swift Current, Sask. About 90 per cent of farms and ranches in southern Alberta were isolated.

At Pincher Creek, west of here, snow was too heavy for plows to handle. Mrs. Mary Ann at a Shell Oil plant near the town were unable to leave the area for the weekend and ended up in a hotel.

A bus from Vancouver barely made it as far as Pincher Creek, and its passengers were stranded in a hotel. At Claresholm, in the northern part of the storm area, snowdrifts were halfway up store fronts. Snowmobile operation was curtailed by slushy, heavy snow.

RCMP at nearby Fort Macleod reported that plows could not move. The heavy snowfall brought a threat of serious flooding and there were fears that many spring calves in the rich ranching country might be lost. Late market garden and sugar beet crops would also be severely damaged.

**Raging Storms Batter Ships Along Atlantic Seaboard**

BOSTON (CP-AP)—Six persons were missing at sea today off the New England coast as rescue ships fought huge waves and high winds to help fishing vessels battered by the raging Atlantic.

The storm, with winds of up to 50 miles an hour, sank two fishing vessels off New England Friday, one with the loss of a six-man crew.

But there was good news from Halifax, where it was announced that five persons caught in the storm have been found safe and in good condition.

The 35-foot fishing vessel Lena G., with four aboard, reached shore safely at Victoria Beach in Nova Scotia's Digby County.

The vessel had been reported missing after leaving Lorneville, N.B., Friday to sail across the bay to Digby, N.S.

And Albert Hook, 26, was found on a tiny island in St. Margaret's Bay, near Halifax. He had been missing since leaving Macdonald's Point, N.S., Friday in a small canoe for a nearby post office.

A spokesman for the air-sea rescue centre in Halifax said Hook was suffering from exposure but that his condition was not serious.

**HOLD LITTLE HOPE**  
The 4,141-ton Liberian freighter Costarican Trader grounded stem-first on rocks near the approaches to Halifax harbor Friday. Little hope was held for the ship as the waves battered it on the rocks. The crew made it to shore.

Rescue ships stood by three fishing vessels off Nova Scotia. An 89-foot fishing vessel, the Noreen, with a crew of 11, was taking on water 75 miles east of Nantucket Island, Mass.

**Further Vietnam Escalation Seen After General's Visit**

WASHINGTON (AP)—Critics predicted today further escalation of the Vietnam fighting while supporters foresaw a stiffening of home-front resolve as the result of Gen. William C. Westmoreland's Washington rounds.

Addressing Congress, briefing governors and conferring personally with key legislators Friday, the U.S. commander in Vietnam won praise from both opponents and supporters of President Johnson's policies for his direction of the military effort.

But it was apparent Westmoreland had failed to turn the tide of crackling congressional criticism directed at Johnson's intensification of the war and at his action in bringing the general home to report at a crucial time in the battle for public opinion.

Westmoreland won a standing ovation when he told Congress: "Backed at home by resolve, confidence, patience, determination and continued support, we will prevail in Vietnam over Communist aggression."

**HELPS WAR EFFORT**  
Such influential members as Speaker John W. McCormack of the House of Representatives and Democratic Chairman Richard B. Russell of the Senate armed services committee thought this appeal would "increase the spirit of resolve" at home to see the war through to victory.

House Republican Leader Gerald R. Ford applauded Westmoreland's call for unity at home.

Mike Mansfield, Senate Democratic leader who has opposed escalation of the war, told reporters he thinks that on the basis of Westmoreland's report more men and money will be poured into the war.

**Victoria's Support Sought In Paying Teachers' Raise**

NEW WESTMINSTER (CP)—The executive of the Union of B.C. Municipalities sent a telegram to Premier Bennett Friday night, urging the provincial government to assume the costs of increased teacher salaries.

Mayor Herb Gardner of Williams Lake, UBCM president, said after the closed executive meeting the government is basing its share of payments on a pupil-teacher ratio set in 1965. "Everyone knows that teachers' salaries have increased substantially over the past two years, placing a heavy burden on the municipalities," he said.

"The wire to the premier read: 'The executive of the UBCM urge you, in view of the large increases in mill rates in all municipalities for the 1967 school costs, to accept as shareable cost for this year the full amount of teachers' salaries actually paid at the local level and to instruct your department of education to act accordingly.'"

Mayor Gardner, the only executive member to comment, said the UBCM was hopeful of a favorable reply from Mr. Bennett.

The mayor called the special meeting to discuss school costs increasing throughout the province.

**U.S. Jets, MiGs In Dogfight**

SAIGON (AP)—Striking again at targets near Hanoi, U.S. planes fought six duels with defending MiGs over North Vietnam Friday and U.S. Air Force pilots claimed two kills.

The F-105 Thunderchiefs ran into heavy missile and MIG defenses as they attacked railway car repair shops 2 1/2 miles east-northeast of the centre of Hanoi and a highway 12 miles west of the capital.

The U.S. command said two MIG 17s were downed but made no mention of any American losses.

Radio Hanoi claimed that four U.S. planes were shot down.

GUIDE COOKIE WEEK BEGINS

"Please buy a package of Girl Guide Cookies, they're awfully good," say three Brownies, from the left, Cathy Risso, 1st Raymer Pack, Shelley Phipps, 2nd Raymer and

Sharon Watkins, also of the 1st Raymer Pack. Girl Guide Cookie Week began Friday and members of the brownies, guides and rangers, will be canvassing Kelowna and dis-

trict during the sale. The proceeds benefit the work of guiding at the local, district and provincial levels and is the only fund-raising project of the year.

## Reward Offered By SPCA

The apparent activities of a dog poisoner in Kelowna has aroused the ire of officials of the Kelowna branch of the Society for the Prevention of Cruelty to Animals.

"In view of recent reports of dog poisoning, the SPCA is offering a reward of \$100 for information leading to the apprehension and conviction of the dog poisoner," an official said.

Kelowna has had a number of dogs poisoned with mouse seed strychnine recently.

## Canadiana Production SRO Again

Music Canadiana, the School District 23 (Kelowna) toast to centennial year, is sold right out for the second and final night.

The performance tonight in the Kelowna Community Theatre features students from schools throughout the district and was sold out by 4 p.m. Friday.

Adult organizers say they are overwhelmed with the success.

If anything there was a bit too much success: some people who bought tickets from school children will not be able to see tonight's performance because too many tickets were sold. The original tickets had to be turned in for reserved seats. Some people, when they tried to make the switch early today, were told all reserved seats had been taken.

A spokesman for the production, unfortunately too many tickets had been printed, in anticipation of plenty of room each night.

Such big crowds simply were not expected.

Although the event was produced especially for centennial year, if a similar production was planned next year, thought should be given to having it run three or even four days, so everyone could attend, a spokesman said today.

## Police Check Second Prank

Vandals in Kelowna Friday pulled a prank which might have killed someone.

At 10:15 p.m. a car tire and rim was rolled down Knox Mountain behind the home of R. M. Wilson, Poplar Point, striking the carport.

"The entire house was badly shaken. A prank such as this could kill someone," said Mr. Wilson.

Last year a similar prank occurred in June on the Wilson residence, causing \$40 damage.

Kelowna RCMP are investigating the incident.

## Cloudy . . .

Skies should be mainly cloudy today and Sunday with a few showers predicted today. Little change in temperature is expected.

A low tonight of 35 and high Sunday of 55 should be reached. Friday's low and high was 37 and 50.

## Naturalists Meet Tuesday

The Central Okanagan Naturalists Club will meet Tuesday in the board room of the Okanagan Regional Library on Queensway at 7:30 p.m.

The guest speaker will be Dr. Clifford Carl, curator of the provincial museum, Victoria.

Members and potential members are invited to attend.

Several Kelowna members are expected to travel to Vernon, May 6 for the B.C. Nature Council meeting at the Coldstream Motor Hotel, beginning at 9 a.m.

Guest speaker will be Dr. David McMullen, of Summerland, entomologist at the Dominion Laboratory. The official Kelowna delegate is E. W. Van Blaricom.

**FINED \$300**  
A Rutland man was fined \$300 on an impaired driving charge in magistrate's court today.

William John Cooper was arrested when police spotted him driving at 12:30 a.m. today on Harvey Avenue. He pleaded guilty. His licence was suspended for three months.

**GIRL HURT**  
Jacqueline Dore, 12, of 512 Cambridge Ave., suffered cuts and bruises when the bicycle she was riding collided with another bicycle at 3:30 p.m. Thursday on Weddell Place.

She was taken to hospital by ambulance and treated for cuts and bruises and released.

**GARAGE DAMAGED**  
The Kelowna Volunteer Fire Brigade extinguished a fire in a garage at 838 Sutherland Ave., Friday at 3:30 p.m. The cause of the blaze is not known and damage was extensive, a fireman said.

(Courier Photo)

## OLD BUILDINGS BOTHER OFFICIALS

These are two of the three buildings near the Kelowna General Hospital which have upset several civic officials. The buildings, near Rose Avenue and Abbott Street, are to

be used for "about three years" while the new hospital is being built. At least one resident of the area has sold his home as a result of the unsightly buildings and some

reports indicate the city will be asked to reduce the assessment of some homes in the area. Ald. Thomas Angus has suggested hedges to improve the area's appearance. Ald.

D. A. Chapman has said construction of new buildings would cost about \$90,000 and would not be a practical expenditure because of the temporary nature of the project.

# Telegram To Bennett Insists On Fair Share

WKP & L HEAD SAYS

## Wage Demands Are Out Of Line

Striking electrical workers cannot expect to get pay increases out of line with other rates existing in the West Kootenay area, the president of West Kootenay Power and Light said today.

Bill Gwyer said there is only so much money to pay the total wage bill for all the people who work in this area.

"If one group gains a disproportionate share there will be less for everyone else," he said.

Mr. Gwyer made his comment as the strikebounty utility announced it would take a series of advertisements in local newspapers to explain the main points in dispute in the strike of 223 electrical workers against the utility company.

"There has been much confusion of the central issues," Mr. Gwyer said.

"Actually, there is only one argument in this strike and that

is money.

"The company has accepted the majority report of the conciliation board which recommended a 17.9 per cent increase. This would give our linemen a rate of \$4.08 an hour next year.

"Our linemen would then be earning from \$9,275 to \$10,600 per year with standby, callout and overtime.

"The average earnings of all our employees would be \$7,360, an increase of \$1,150.

"West Kootenay Power employees have struck against these exceptional wage increases. It would appear that union bosses in Vancouver have told them to hold out for more.

"We must take a firm stand against this demand for too much of the wage pie," Gwyer said, "so that the livelihood and income potential of other groups in this community is not jeopardized."

## Discrimination Should Cease Premier Told By Parkinson

Kelowna has demanded its share of education grants from the provincial government.

Mayor R. F. Parkinson has sent a telegram to Premier Bennett, saying Kelowna has no hesitation in "resolutely demanding" the "flagrant discrimination" cease and educational contributions be increased.

The mayor said his protest was being made in "the strongest possible" terms.

Some of those terms included a reference to the government's "financial wizardry" and to the "sorry state of your education finance policy."

The decision to send the protest was made unanimously at a city council meeting Monday.

School board officials told the council the government had given provincial school districts extra grants, adjustments or subsidies, "call it what you may," of up to \$27,000. Kelowna received \$20,000. The grants are in addition to the regular government financial aid.

Chilliwack School District, of comparable size to Kelowna's, received \$69,000. The government's system of distribution has been said to have "no rhyme or reason."

Protests have been made by School District 23, the City of Kelowna and by the chamber of commerce.

The telegram from Mayor Parkinson reads: School District 23 has just advised Kelowna council an appalling increase in the school mill rate of 4.5 mills will be required here in 1967. This is terrible news indeed and will add a considerable burden to our already heavy-

ily pressed taxpayers.

"Compounding our difficulties is the fact your government has chosen to distribute additional 'adjustments' or subsidies towards school costs on what appears to be a completely haphazard and unfair basis completely overlooking Kelowna in their distribution thus heavily penalizing our taxpayers."

"We have read the school district's letter of April 21 to the minister of education and support their protests in the strongest possible terms. Handing out subsidies in such a manner as to increase our board's apparent costs above the provincial average when, previous to application of the subsidies it was reasonably well below the average, is surely reprehensible in the extreme."

Such unfair action required to maintain some semblance of order as between school districts exposes the sorry state of your education finance policy. The Kelowna school board, the Kelowna council and the Kelowna taxpayer are entitled to an explanation of the financial wizardry attendant on this latest haphazard distribution of grants and have no hesitation in resolutely demanding appropriate immediate action by your government to cease the flagrant discrimination shown against our taxpayers by immediately increasing the provincial contribution to education costs to Kelowna School District No. 23 to eliminate this almost unbelievable discrimination."

There have been no reports of a reply from the premier or the education department.

## Okanagan Officials Happy About War On 'Balsam Bug'

Officials in the Okanagan are enthusiastic about the joint provincial-federal project to find out more about the balsam woolly aphid which poses a threat to forests in B.C.

"They are doing a lot of good in stopping the spread of this insect," said Phil Lucier, plant foreman at Trautman-Garraway sawmill in Peachland.

"It's a good idea if the government is going to help. We would welcome any advice in protecting our forests and combating spread of the insect," said John Olinger of Rutland Sawmills.

Dr. D. A. Ross of the Forest Entomology Laboratory in Vernon said although the aphid is not in the Interior of B.C., balsam trees, which the bug destroys, are being watched.

He said field men are keeping an eye open for indications of it spreading here and efforts are being made to prevent the spread by stopping movement outside the area infested now, which is the lower mainland.

Aircraft and guns may be used in the years ahead to repel an alien invader of valuable forests.

The enemy, a bug, surreptitiously slipped into North America from an unnamed European country several years ago, hidden in immigrant balsam shrubs.

Less than 1-16th of an inch long, the balsam woolly aphid can maim, cripple, dwarf and kill a tree, or a forest. The tiny insect is so powerful the B.C. Forest Service ranks it with fire as enemy No. 1.

The forest service says infestation of balsam woolly aphid is a direct threat to the province's 260,000,000 board feet of standing balsam and fir timber. The tiny insect could wipe out 14 per cent of the forest which covers nearly three-quarters of B.C.'s 359,270 square mile area.

Balsam's primary use is for pulp, and B.C. has 18 pulp mills operating and 16 more in various stages of planning, says Cy Phillips, chief protection officer for the B.C. Forest Service.

**COSTLY WAR**  
It takes 1,000 board feet of balsam timber to make two tons of pulp, and at current prices a ton of pulp sells for \$60. That means B.C.'s stake in this war on the tiny insect could amount to \$3,000,000,000.

A joint provincial-federal government project was started in an attempt to find out more about the aphid. Working within a \$300,000 project budget, 18 members of the B.C. forest service are making extensive surveys to find the extent of the infestations, so far apparently confined to the lower mainland.

## \$757,017 DAMAGE LAST YEAR

# Protection Plan Started For Forest Fire Season

British Columbia's 1967 forest fire season goes into effect at midnight, Sunday and will continue in force until the end of October, in accordance with provisions of the Forest Act and Fire Prevention Regulations, it was announced today by the B.C. Forest Service.

The public is reminded the lighting of all outdoor fires for any purpose in the Okanagan and throughout the province is prohibited unless a permit is held.

Permits are required for all campfires and these may be obtained from any forest service or fish and game branch office, and from many sporting goods stores. No permit is required for portable camp stoves or for fires set in approved facilities in provincial camp and picnic sites, or in supervised commercial campgrounds.

Burning permits, which are required for clearing land, burning debris, and similar activities, may be obtained only from a forest ranger office, except in municipal areas where they may be obtained from local authorities.

Throughout the fire season, regulations require that all accidental fires discovered in forest or woodland be extinguished if possible and that they be reported to the forest service by the quickest means possible.

Access to any or all forest areas may be prohibited during periods of high hazard and public notification will be made when such closures are to be put into effect.

For the first time in a number of years, there have been no changes in the fire prevention regulations, which will be the same as those issued for 1966.

During the fire season, the forest service will have available for forest protection duties a total of 44 aircraft, in addition to about 750 protection personnel located in the 108 ranger districts. Forty initial attack and suppression crews also will be available as advance forces to handle fires in their initial stages, and 163 lookout towers will be manned throughout the province, augmented by six spotter aircraft from the forest service air fleet.

The aircraft, of which 31 are fixed wing and 13 are helicopters, will be located at various airfields in the five forest districts as follows:

Vancouver District, four fixed wing and two helicopters; Prince Rupert District, six fixed wing and two helicopters; Prince George District, six fixed wing and four helicopters;

Kamloops District, nine fixed wing and two helicopters, and Nelson District, five fixed wing and two helicopters.

This year, the air tankers will extend the use of long-term fire retardants which were tested in the Kamloops District last year. The usual retardants such as Bentonite also will be used.

The 1966 fire season was relatively quiet, with a total of 1,967 fires, compared with the annual average of 2,117 fires for the 10-year period from 1957 to 1966. During last year, forest fires burned over 54,788 acres and caused a total of \$757,017 damage to forest cover. This was in marked contrast to the 10-year average of 438,039 acres burned and \$3,252,637 damage to forest cover.

Prince George Forest District was the hardest hit last year, with 43,752 acres burned and \$648,504 damage to forest cover.

Major single causes of fires in the province followed the usual pattern and were: lightning, 19 per cent of the total; smokers, 14 per cent, and recreational activities, 12 per cent. The 10-year average showed a much higher incidence of lightning fires, which accounted for 36 per cent of the average annual total. However, the figures for fires caused by smokers and recreational activities were fairly constant at 12 per cent and 11 per cent respectively.

Although figures for acreage burned and damage done to forest cover were relatively low, the Kamloops District, of which the Kelowna ranger district is a part, suffered the greatest number of forest fires — 639 or 32 1/2 per cent of the provincial total. Lightning caused 124 fires; smokers, 98, and recreational activities, 66. Acres burned totalled 4,592 and damage to forest cover was \$49,485.

Next on the list was the Nelson district with 458 fires or 23 per cent of the provincial total. Lightning caused 127; smokers, 56, and recreational activities, 40. Acres burned totalled 2,777 and damage to forest cover was \$19,744.

The Vancouver district was close behind with 402 fires or 20 per cent of the total. Lightning caused only 21 fires but smokers, blamed for 97, brought the district to only one short of the Kamloops district's 98. Recreational activities accounted for 57 fires, a total exceeded only in the Kamloops district again. Acres burned totalled 667 and damage to forest cover was \$11,742.

The Prince George district, although it had by far the greatest amount of damage to forest cover, was second lowest in the number of fires — 258 or 13 per cent of the provincial total. Lightning was responsible for 61 fires, smokers for 18, and recreational activities for 30.

Ken Doraty, retired national hockey league player, visited Kelowna Wednesday on his return from an extended vacation in Europe, where he attended the World Hockey Championship in Vienna. Doraty scored the winning goal in 1942 when the Toronto Maple Leafs defeated the Detroit Red Wings.

A net profit of \$900 was made by the Kelowna Boys Club from its auction last week. Club president Jim Rose thanked the people who supported the auction and said the auctioneers did an especially good job. The money will be added to the fund for a new clubhouse at Lombardy Park.

There may be a few people

who don't know—The Okanagan Lake bridge is sinking lower every day and traffic has to climb higher and descend lower from the centre section to reach the fixed ends. The level of the lake Thursday was 98.7 and still going down. Since the centre section of the bridge is on pontoons, it is descending with the lake level. The lake dropped to the same level in 1962 and in 1959. It normally begins to rise between April 27 and May 10, reaching 102.2 by mid-June. A runoff of five feet is anticipated.

Somebody made a boob-on and will have to go out with a can of paint and a brush before the tourist season begins and make a correction. The visitor and convention map outside the chamber of commerce office says Kelowna's "acorage" is 3,703.

Members of the Kelowna Secondary School's track and field club get high marks for enthusiasm for training this week under so sunny Okanagan skies. A little rain and wet grass certainly isn't enough to stop these active youngsters, anxious to get outside to shake winter's creaking bones and tone muscles for another active season with the Okanagan Track and Field Club.

Culture knows no limits dept; One of about 100 people who watched firemen extinguish a fire Thursday in a Martin Avenue house was determined not to let the action interrupt his usual afternoon activity. As firemen hurried to kill the blaze he watched the proceedings with a transistor radio held tightly to his ear. Smoke Gets In Your Eyes, would have been an appropriate tune.

Mayor R. F. Parkinson asked Washington State Apple Blossom Queen Patty Soaman if she and her escorts, Princess Jeanne Stewart and Princess Pat Harris if they managed to get through the picket lines when they visited the city hall yesterday.

## Operation Cosmetic Junk Trips Set For Second Week In May

Officials of Operation Cosmetic have changed the major clean-up date from the first week to the second week in May.

"We will be better prepared to remove rubbish, prunings and other rubbish from city homes at that time," said Ald. Thomas Angus, committee chairman.

He said committee members are inspecting all areas of the city and will report on homes and areas which need improvement. Checks are being made on city streets, homes, alleys, lanes and boulevards.

Letters will be sent to owners of areas where improvement is needed.

Ald. Angus said emphasis is being placed on the downtown area and business section of Kelowna.

"We would like all shopkeepers to dress up their store windows. Flags and placards will be set up in the downtown area and we hope all the shopkeepers will make a special effort in their window displays," he said.

Two store owners, Jim Treadgold and Hec Turvey, will paint the exterior of their stores as part of Operation Cosmetic.

"We would like to see a lot more of this type of co-operation among store owners," said Ald. Angus.

ANOTHER FIRST FOR INTERIOR

A. J. Monk, of Dupont of Canada Ltd., presents Lloyd Baggio with the first student prize of the Dupont Film Exhibit for 1967. Mr. Baggio is the first radiography technician

student to be trained in the interior of B.C. Looking on are Dr. C. B. Moss, left, radiologist and Arthur Cliffe, senior technician at the Kelowna General Hospital where

Mr. Baggio received his training. Mr. Baggio's exhibit was on tomography of the facial complex. He also was a 1966 winner from the Canadian Society of Radiological technicians.

### In The Quest For Newness We Must Not Forget God

The ancient Athenian search for "Something new" is the mark on the forehead of this present generation. We hear of and see changes in every area of life: new drugs, new cures, new math, new grammar, new hemlines, new media of communication, new ventures into space, new forms of art and music, new architecture, new means of transportation, new comforts, new pleasures, new forms of combat, new mortality, new theology.

In seeking for the "new", man, who is not an irreligious being, is rather an idolatrous being. Eric Fromm claims that men are "invertebrate idolaters". We substitute something for God; we give ultimacy to that which is not ultimate. A knowledge of the Bible would indicate that God, in His Word, is not concerned with atheism, but with idolatry.

Man's intellect is the chief idol we worship. To be sure, there is far more emphasis in our daily living upon the cultivation of the grey matter than there is upon the cultivation of righteousness. Many people spend much of their time, energy and money on physical fitness programs (good as they are); but we must go on to inquire: for what are we being made fit? The dedication of man's intellect has given rise to a trinity of false deities: scientism, humanism and secularism.

Science in itself is neither good nor bad. Science is knowledge but it is not wisdom. Yet, strangely enough, men make the arrogant assumption that there is nothing outside of the material universe. Within the next few years we will see far greater scientific advances than we have seen in the last

decade; but science is not to be worshipped. John, in his epistle (1:5:13) says: "My little children, keep yourself from idols."

Humanism, the belief that man of himself is self-sufficient and self-confident, with no need of God, repudiates man's fallen condition and his need of redemption. No man is not getting better and better. He may have a greater supply of knowledge, but he is no wiser.

Secularism, the organization of life without God, is the prevailing mood of our day. It is a militant philosophy which claims man can cope with all his questions, problems and troubles without the crutch of God. So, God has been given His walking-ticket. He is dead.

Man cannot survive the fatal delusion that he is God. We must guard against the conceit that there is nothing greater than the mind of man. Long ago the prophet Jeremiah uttered timely words (9:23, 24): "Thus saith the Lord, Let not the wise man glory in his wisdom, neither let the mighty man glory in his riches; let not the rich man glory in his riches; but let him that glorieth glory in this, that he understandeth and knoweth Me, that I am the Lord who exercises loving kindness, judgment and righteousness in the earth; for in these things I delight, saith the Lord."

God forgive us our idolatry! May each of us personally realize that "God so loved the world that He gave His only begotten Son, that whosoever believeth in Him, should not perish but have everlasting life." (John 3:16).

—Rev. Alvin C. Hamill,  
First Baptist Church, Kelowna.

## Canada As Leader?

(Victoria Colonist)

The decision of the British government to make another application to join the European Common Market again raises the question as to what will happen to the Commonwealth if the application is approved.

When the Conservative government failed in its bid in 1963, it was mainly on the opposition of France, and there is as yet no indication that President de Gaulle has changed his views.

He was then of the opinion that Britain was not yet sufficiently "European-minded" and that it would bring with it loyalties divided between the EEC and the Commonwealth.

In 1963, Harold Wilson, then leader of the opposition in the British House of Commons, opposed the government plan of entry in the Common Market on the grounds that Britain's first loyalty was to the Commonwealth.

If his attitude in this respect has not changed, it is difficult to imagine that President de Gaulle will feel any happier now about Britain's entry.

The recent meeting in London of Commonwealth ministers has been more or less of a private nature and the talks which have taken place on the British position have not been made public.

Agricultural products are the main difficulty, because France, an agricultural exporter, does not want free entry of Canadian, New Zealand and Australian farm products into its own preserves.

While the situation might be hard for Canada with its big grain exports to Britain, it would be a tragedy for

New Zealand which depends largely on its farm exports to Britain for its very existence.

Time alone will tell whether the British move means the scuttling of the Commonwealth, but there are, of course, alternatives.

It is possible, for instance, that Canada could take over Britain's role as Commonwealth leader, and so among the countries of Africa, Central America, Southeast Asia and Australia create a new economic bond that might on the long term have many attractions.

The problems of finding markets for countries which are predominantly exporters of raw or semi-refined materials is not obvious at the moment, and there would be the additional difficulty in that Canada alone of the Commonwealth countries is in the dollar bloc.

In this respect, however, it is to be hoped that Australia is now on a dollars and cents currency, and it is not beyond the bounds of possibility that its adoption of a Commonwealth dollar sphere of influence could be established to the possible advantage of all including the underdeveloped Commonwealth countries of Africa.

The whole thing depends upon the terms under which Britain would be willing to accept membership in the EEC, and then upon the reaction of the EEC countries to those conditions.

However, it is to be expected that the Commonwealth foreign ministers are now well versed in the prospects and that they will be acting accordingly.

## Call Sounds Out Australia 'Why Not Our Own Flag'

By VINCENT MATTHEWS  
Canadian Press Correspondent  
MELBOURNE (CP) — Can-  
ada is being mentioned by some  
Australians these days as a  
country to be envied.  
"Canada has a flag of its own  
— why can't we?" demands the  
leader of the Australian Republi-  
can party, a small, way-out  
group of eccentrics who want to  
break the constitutional ties with  
Britain, ditch the Queen and  
have an elected president and  
an Australian flag and anthem.  
In the state of Victoria they

can muster about 20,000 votes  
out of a total of 1,000,000 at elec-  
tion times. They are something  
of a political novelty. Few peo-  
ple take them seriously. But  
what they say is being taken  
seriously.

Politically, Australians are ap-  
athetic. There have never been  
any great issues to rouse or  
divide them. They are a  
homogeneous people and the na-  
tion's traditionally British char-  
acter has never really been dis-  
turbed even by immigration  
from Europe. Italians, Greeks

and Dutch have been allowed  
an economic role in the nation's  
life, but their political influence  
has been negligible.

The most bitter political issue  
in 50 years of federation has  
been over a Labor party split  
when the Irish Catholic element  
wanted to go right and the radicals  
wanted to go left.

### CHANGE IS GRADUAL

If someone advocated a re-  
publican line in Australia it  
would never raise the heat that  
it would in Canada. Changes  
take place in Australia un-  
dramatically and almost impercep-  
tibly.

And an important change in  
Australia's relationship with  
Britain is taking place with  
most people not even noticing it.

New South Wales is a good  
example. Thirty years ago that  
state had an English governor  
and an English archbishop, and  
in the Sydney home of the gov-  
ernor — general there lived an  
other Englishman. Now there is  
an Australian governor, an Aus-  
tralian archbishop and an Aus-  
tralian governor-general.

Thirty years ago all but one  
of the state's Church of England  
diocesan bishops were English.  
Now there are only eight Eng-  
lish bishops left in what has be-  
come the "Church of England in  
Australia."

What brought the flag issue  
out of the Australian Republi-  
can party's rooms and into the  
open was a report by diplomats  
back from overseas postings  
that many foreigners found the  
Australian flag confusing. The  
flag is blue with six white  
stars and a Union Jack in one  
corner.

"Why the Union Jack?" for-  
eigners asked. "That's Brit-  
ain's flag."

### NO FUSS FOR ROYALTY

Earlier this year, two mem-  
bers of the royal family vis-  
ited Australia. The Duke of  
Edinburgh and Princess Alex-  
andra came and went on their  
separate missions with as much  
fuss as a visiting nightclub  
performer might create — and  
much less than a visiting pop  
group would cause.

The duke caught the mood of  
the questioning reporters in Can-  
berra when he replied to one  
pointed query by saying that if  
it was felt there was no further  
use for the monarchy it should  
be dropped.

But the monarchy is only a  
part of the story of the way  
Australia is growing away from  
Britain.

Take trade. Japan now has re-  
placed Britain as Australia's  
main customer.  
Australia's search for new  
markets has become desperately  
urgent now that Britain is again  
getting close to the Common  
Market. When Britain first  
made its overtures to Europe in  
1962 the feeling in Canberra  
was bitter.

Today there is a more philo-  
sophical approach to Harold Wil-  
son's efforts to get into Europe.

### HAVE NO ILLUSIONS

Militarily it might be differ-  
ent. The Australian government  
feels the country cannot stand  
on its own. Neither can it rely  
on Britain. This feeling has been  
growing ever since the fall of  
Singapore in 1942. Officials in  
Canberra now are under no il-  
lusion that it is only a matter  
of a few years before Britain's  
so-called East of Suez role will  
end altogether.

So Australia has turned to the  
United States. Its defence pol-  
icy is based on the ANZUS  
treaty among Australia, New  
Zealand and the United States.  
It sent troops to Vietnam be-  
cause it feels anything that en-  
courages the U.S. to maintain a  
military presence in Southeast  
Asia is good for Australia.

This, then, is the background  
to the cries of those little men  
in Melbourne who want "a flag  
of their own, like Canada has."  
They are beginning to feel time  
is on their side.

## TO YOUR GOOD HEALTH

### Giddiness Can Occur From This Difficulty

By DR. JOSEPH G. MOLNER

Dear Dr. Molner:

What is cervical arthritis?  
Does it affect head, neck and  
spine and make one dizzy or  
light-headed? Or even heavy-  
headed? Does it lead to senility  
or crippling? What medication  
or treatment is preferred? —  
A.A.G.

It isn't a particular kind of  
arthritis. It can be any form  
which affects the cervical area,  
that is, the vertebrae of the  
neck.

Usually it is the ordinary de-  
generative arthritis, or osteo-  
arthritis, so often found in older  
people. It may at times be  
rheumatoid arthritis which can  
attack at any age but is more  
likely in younger people. It can  
be gouty arthritis, although in  
that instance it will generally  
have made its presence known  
elsewhere in the body first, often  
in the joint of the big toe.

Whichever type of arthritis it  
may be, when these joints in  
the neck spine are affected, it  
can cause stiffness and/or pain,  
and in addition nerves which  
emanate from that part of the  
spine, particularly those to the  
hands.

Giddiness can occur, espe-  
cially when bending the head  
back and looking up. It may  
come on as a "referred pain"  
in shoulders, arms or even  
hands, depending on what nerves  
are pinched — if any.

But it is not the sort of thing  
which causes crippling in the  
sense of deforming or prevent-  
ing movement of other parts of  
the body, and it does not cause  
senility in the sense of inter-  
fering with thought processes.  
We must admit, however, that  
certain joint disorders very  
commonly are a part of the  
normal process of growing old —  
but let's not confuse aging with  
what we usually imply with the  
word "senility."

Treatment varies. The sali-  
cylates (aspirin-type) are by far  
the most widely used and do the  
most total good. If the neck is  
quite painful, the muscle spasm  
and tension make the whole sit-

uation worse, and muscle re-  
laxants may be used to relieve  
this part of the problem.

Neck traction also can be  
very useful, depending on the  
precise nature of symptoms, i.e.  
indications of pressure on  
nerves. In some cases a head  
halter device, used periodically  
to draw the bones a little bit  
apart, may give welcome re-  
lief. And some cases may re-  
quire splinting of the neck, that  
is, the use of a thick collar.  
It all depends on the severity, of  
course.

Dear Dr. Molner: I take nitro-  
glycerine for a heart condition  
but don't take a tablet every-  
night because in a few seconds  
I get a slight pain in my head  
and am afraid it may cause  
brain damage. — C.R.

It will not damage the brain  
in any way. Some people notice  
a brief head pain, sense of full-  
ness, or slight dizziness with this  
drug, but it passes quickly and  
does no harm.

Dear Dr. Molner: A few  
months ago you said something  
about drinking milk. I don't re-  
member the details but some-  
thing about an adult not drink-  
ing more than three glasses a  
day as it could cause some  
malfunction and too much cal-  
cium. Then recently you say  
the body will discharge any ex-  
cess calcium. I would appreciate  
your explanation of these  
opposite statements. — B.B.

That's easy. Your memory  
slipped a cog, because I have  
never said anything about milk  
being too much. It is true that  
some people cannot tolerate much  
milk or milk products, but that  
is an abnormal condition al-  
though not especially rare.  
Those folks, to keep their diges-  
tive tracts comfortable, must  
limit the milk they consume and  
get their calcium from other  
sources. Some adults with cal-  
cium kidney stones may have  
to limit the amount of milk they  
use because of its calcium con-  
tent.

## LOOKING BACK WITH OLD STAGER

### Hospital Group Active In '07

By ART GRAY

Today, when Kelowna and  
district is in the process of  
starting to build a huge new  
hospital, it is of interest to look  
back at the early beginnings of  
the first hospital some 60 years  
ago.

The hospital society had been  
started in 1905 but it was not  
until April 23, 1907, that a meet-  
ing of the Kelowna Hospital  
Society was in a position to  
accept bids for construction of  
the Cottage Hospital. On that  
date a bid by M. J. Curtis to  
construct the building for the  
sum of \$6,775 was accepted.

Lacking the tax basis of the  
modern hospital, the cost of con-  
struction had to be met entirely  
by voluntary subscriptions, and  
in cases like this it is not sur-  
prising to find that fronting the  
organization there was a group  
of prominent businessmen, and  
also in the background, a wo-  
men's group busy raising money  
by various means for the pro-  
ject.

In the Courier of April 11,  
1907, there is a full account of  
one of these fund-raising efforts,  
the hospital bazaar, and taking  
into account high buying power  
of a dollar then and the low-  
by modern standards — incomes  
of most residents, the amount  
they realized by the bazaar was  
astounding, and a good boost  
to the building fund too.

### FULL DETAIL

The Courier relates the affair  
in full detail: "The Hospital  
Bazaar on Wednesday last  
turned out a phenomenal suc-  
cess, largely due to the self-  
sacrificing efforts of its or-  
ganizers and the ladies who  
gave their services so generously  
at the stalls and booths and  
bore the brunt of being sales-  
ladies. The sale, embracing  
about 10 acres, was donated by  
the Kelowna Land and Orchard  
Co.

A code of bylaws was sub-  
mitted and caused a good deal of  
discussion, but was finally  
adopted in bloc. The board of  
directors for the current year  
were elected. It is interest-  
ing to note that the represen-  
tation was allotted solely with  
regard to religious denomina-  
tions in the district. Those  
chosen were as follows:

Baptists: J. B. Knowles, J.  
E. Reekie, W. Bird; Roman  
Catholics: M. Heron, J.  
Gruey, J. Cascoe; Church of  
England: W. C. Cameron, E.  
Weddell, P. Dumoulin; Metho-  
dists: John Dilworth, Dr.  
Gaddes, A. E. Cox; Presbyter-  
ians: Thos. Lawson, D. W.  
Sutherland, Robt. Morrison.

Work got underway eventually  
in the construction of the cot-  
tage hospital, but due to delays,  
including some hold-up in the  
government grant for a time,  
it was not until May 9, 1908 that  
the hospital was officially open-  
ed. Hon. Price Ellison, the  
member for the provincial rid-  
ing of Okanagan, doing the  
honors.

### DELAY IN COMPLETING

Delay in completing the hospi-  
tal was actually due in part to  
his opposition, and in his speech  
he said "Kelowna will find the  
upkeep a burden, and would  
have done better to have com-  
bined with Vernon." Needless to  
say these statements did not  
bring him a hearty round of  
applause.

### BERRIES HOLD TIGHT

EDINBURGH (CP) — Scot-  
tish scientists are trying to  
develop a strain of raspberry  
that can be picked by machine.  
Automatic pickers work by vi-  
cally breaking the plants to shake  
the fruit loose but the best British  
varieties of raspberry cling so  
tightly they can only be picked  
by hand.

### LETTER TO EDITOR

#### SWINGING COMMODORE?

As they say, let's get with it  
and have a swinging, charming  
commodore for the Centennial  
Regatta. The green's best  
woman skier, Nancy Greene,  
Yours truly,  
JOHN D. HINDLE.

## CANADA'S STORY

### CPR Established Pacific Records

By BOB BOWMAN

Many transportation records were broken on April 29, 1901,  
when the Canadian Pacific liner Empress of India arrived at  
Vancouver. She had sailed from Hong Kong on April 7, and  
crossed the Pacific two days faster than any other ship. Bags  
of mail from the Far East were transferred to a special CPR  
train and rushed to New York in the incredible time of three  
and a half days. The train highballed across the continent  
making as few stops as possible. The mail was delivered in  
London 26 days after leaving Yokohama, two weeks faster  
than if it had gone by the customary Suez route.

Before leaving on the record-breaking trip the Empress of  
India unfurled the new red and white checkered "house flag"  
which became famous around the world. It had no historical  
or heraldic significance, but was designed by Sir William Van  
Horne, then president of the CPR, to be easily recognized.  
Someone suggested that it meant "three of a kind" but Sir  
William replied that only a "straight flush" would be big enough  
for the CPR.

The Empress of India was soon joined by the Empress of  
Japan and Empress of China and their successful voyages  
across the Pacific may have saved the CPR during the depres-  
sion years 1893-1895 when many railways in the U.S.A. went  
bankrupt.

The Empress of Japan had a Japanese dragon as a figure-  
head on her bow, and it is on display now in Stanley Park,  
Vancouver.

### OTHER EVENTS ON APRIL 29:

- 1627 Company of 100 Associates established to develop  
Canada
- 1742 Sons of Pierre La Verendrye began search for route  
to the Pacific
- 1792 Captain George Vancouver sailed through Strait of  
Juan de Fuca
- 1903 Heavy loss of life when avalanche destroyed town of  
Frank, Alberta.

Knowles, Knox, Crowley, Lec-  
kie, Gaddes and Stirling and  
Misses Reekie, Glenn, Wilson,  
Morrison and Guardhouse. As-  
sisting were the Misses Milligan,  
Melsome, Scadding, Hunter,  
Smith and Budden. Mrs. Boyce  
did hard and faithful service as  
cashier and Mrs. Faulder at-  
tended to the wrapping of par-  
cels.

"With a liberal grant from  
the provincial government in  
aid of the building fund, which  
there is every reason to believe  
will be made, and with the  
money already on hand, there is  
no question now but that the  
hospital can be carried success-  
fully to completion."

So read the account of the  
highly-successful effort by the  
ladies of Kelowna and district  
in helping to bring into being  
Kelowna's first hospital.

The meeting of the hospital  
society held the same afternoon  
as the bazaar, was not well  
attended, which is not surpris-  
ing. The only surprising thing  
was that the meeting should  
have been called for that after-  
noon. Only 20 persons attended.

Philip Dumoulin was voted to  
be the chair and A. L. Meugens  
acted as secretary. It was an  
important and historic meeting,  
however, M. J. Curtis' tender  
for construction of the hospital  
for the sum of \$6,775 was ac-  
cepted and arrangements were  
made for construction to pro-  
ceed at once.

### EVERY FACILITY

The dimensions of the build-  
ing will be 78 by 41 feet, we  
are told, and the lower storey  
will be of concrete blocks and  
the upper of wood. There will  
be accommodation for 20 pa-  
tients and every facility will  
be provided for handling surgical  
cases. The site, embracing  
about 10 acres, was donated by  
the Kelowna Land and Orchard  
Co.

A code of bylaws was sub-  
mitted and caused a good deal of  
discussion, but was finally  
adopted in bloc. The board of  
directors for the current year  
were elected. It is interest-  
ing to note that the represen-  
tation was allotted solely with  
regard to religious denomina-  
tions in the district. Those  
chosen were as follows:

Baptists: J. B. Knowles, J.  
E. Reekie, W. Bird; Roman  
Catholics: M. Heron, J.  
Gruey, J. Cascoe; Church of  
England: W. C. Cameron, E.  
Weddell, P. Dumoulin; Metho-  
dists: John Dilworth, Dr.  
Gaddes, A. E. Cox; Presbyter-  
ians: Thos. Lawson, D. W.  
Sutherland, Robt. Morrison.

Work got underway eventually  
in the construction of the cot-  
tage hospital, but due to delays,  
including some hold-up in the  
government grant for a time,  
it was not until May 9, 1908 that  
the hospital was officially open-  
ed. Hon. Price Ellison, the  
member for the provincial rid-  
ing of Okanagan, doing the  
honors.

### DELAY IN COMPLETING

Delay in completing the hospi-  
tal was actually due in part to  
his opposition, and in his speech  
he said "Kelowna will find the  
upkeep a burden, and would  
have done better to have com-  
bined with Vernon." Needless to  
say these statements did not  
bring him a hearty round of  
applause.

### BERRIES HOLD TIGHT

EDINBURGH (CP) — Scot-  
tish scientists are trying to  
develop a strain of raspberry  
that can be picked by machine.  
Automatic pickers work by vi-  
cally breaking the plants to shake  
the fruit loose but the best British  
varieties of raspberry cling so  
tightly they can only be picked  
by hand.

## CANADA'S STORY

### CPR Established Pacific Records

By BOB BOWMAN

Many transportation records were broken on April 29, 1901,  
when the Canadian Pacific liner Empress of India arrived at  
Vancouver. She had sailed from Hong Kong on April 7, and  
crossed the Pacific two days faster than any other ship. Bags  
of mail from the Far East were transferred to a special CPR  
train and rushed to New York in the incredible time of three  
and a half days. The train highballed across the continent  
making as few stops as possible. The mail was delivered in  
London 26 days after leaving Yokohama, two weeks faster  
than if it had gone by the customary Suez route.

Before leaving on the record-breaking trip the Empress of  
India unfurled the new red and white checkered "house flag"  
which became famous around the world. It had no historical  
or heraldic significance, but was designed by Sir William Van  
Horne, then president of the CPR, to be easily recognized.  
Someone suggested that it meant "three of a kind" but Sir  
William replied that only a "straight flush" would be big enough  
for the CPR.

The Empress of India was soon joined by the Empress of  
Japan and Empress of China and their successful voyages  
across the Pacific may have saved the CPR during the depres-  
sion years 1893-1895 when many railways in the U.S.A. went  
bankrupt.

The Empress of Japan had a Japanese dragon as a figure-  
head on her bow, and it is on display now in Stanley Park,  
Vancouver.

### OTHER EVENTS ON APRIL 29:

- 1627 Company of 100 Associates established to develop  
Canada
- 1742 Sons of Pierre La Verendrye began search for route  
to the Pacific
- 1792 Captain George Vancouver sailed through Strait of  
Juan de Fuca
- 1903 Heavy loss of life when avalanche destroyed town of  
Frank, Alberta.

### 10 YEARS AGO

April 1857

J. C. Meek, of Rosland has been  
appointed district supervisor of the  
Kelowna area, West Kootenay Power and  
Light Co. Mr. Meek, who succeeds  
Robert Cunningham, has been with the  
power company 20 years. He was elected  
alderman for the city of Rosland  
at the last municipal election. Mr.  
Cunningham resigned to take a position  
with the B.C. Power Commission at  
Prince George.

### 20 YEARS AGO

April 1847

Mrs. Don Munday, well known alpine  
climber and naturalist, is the guest of  
Mrs. H. W. Arbuckle. Mrs. Munday is  
travelling through the Interior giving  
demonstrations of camp craft to Girl  
Guide groups, and is also showing pic-  
tures of outdoor life, including mountai-  
neering.

served.

### 30 YEARS AGO

April 1937

"The Indifferent Citizen" is public  
enemy No. 1 according to Jack Ewan,  
government critic in the Boys' Parlia-  
ment. He addressed the Rotary Club  
at luncheon here. Also speaking was  
Ian Elsenhardt, provincial director of  
recreation centres in B.C.

### 40 YEARS AGO

April 1927

The Vernon Road, for a distance of  
four miles from the city, is being sur-  
faced with tarmac by the department of  
public works. Twenty-four feet of the  
middle of the road is being treated, and  
it is hoped that motorists will refrain  
from travelling on portions that are not  
fully dry. Piles of sand have been placed  
along the roadside for scattering over  
the treated surface. One motorist amu-  
sed himself by driving over all of them.

### 50 YEARS AGO

Hearing Peter preach after healing the lame beggar, the Sadducees had him and John arrested.—Acts 4:1-4.

The next day, before the assembled Sanhedrin, Peter and John were questioned about the healing.—Acts 4:5-7.

Speaking respectfully, Peter witnessed to Christ's resurrection and man's salvation in Him.—Acts 4:8-12.

Threatened and freed, Peter refused the Sanhedrin's verdict.—Acts 4:13-20. GOLDEN TEXT: Acts 4:20.

## Bid To See 'Through Glass' Aim Of Religious Thinkers

By GEORGE W. CORNELL  
AP Religion Writer

NEW YORK (AP) — Ever since the Apostle Paul declared that "now we see through a glass darkly," Christianity has recognized that its defining doctrines were imperfect reflections of what basically remains mystery.

Yet efforts to express and illuminate its truths have been made through the centuries, in councils, creeds and articles of faith. Today, many church thinkers are wrestling anew with the problem — to state beliefs better.

Amid the reappraisals, and the sometimes disturbed reactions to them, a controversial Canadian priest has urged that the churches quit prescribing specific interpretations.

"The church should stop presuming to be the answer man," said Rev. Ernest Harrison, an Anglican clergyman of Toronto. "Its proper function is to be a community of searchers, welcoming all serious viewpoints."

Harrison, a bespectacled man of 50, whose ideas have resulted in his being barred from ministerial functions in the Toronto diocese, said Christianity's "big challenge now is to live with uncertainty."

He added: "To live with uncertainty is a sign of maturity." Here in connection with the issuance of his new book, "A Church Without God," published by Lippincott, he said in an interview that the church can no longer be absolute about doctrines.

"It can't say that one view is right and another wrong, that there is only one true view. Life has shown us that nobody has the final answers for all time, that we learn from experience and each other."

"Instead of force-feeding answers, the church ought to offer a choice. It should open its gates and recognize the legitimacy of many more rooms of differing understanding."

Asked how this would differ from the unitarian-universalist outlook, which meshes many religious views, he said he didn't advocate a blend of concepts, but rather a diverse "pluralistic church," ranging from highly orthodox parishes to wide-open ones.

"The full spectrum," he said, "I don't see why it should be so difficult. After all, each of us is different." In his book, he discounts many standard doctrinal formulations, including Christ's divinity.

**DOCTRINES IN DOUBT**  
"Almost every point raised in the creeds is doubted by vast numbers of Christians," he maintains. "Some are strongly denied. Some, like the virgin birth, are received in lukewarm fashion. ... Yet they are still announced as doctrines of the church."

"If the church were seriously accepted as the people of God, then all their feelings, reactions and thoughts would be represented in its teachings. But this has not happened."

Consequently, he adds, many Christians "are trapped." "For, in spite of the loud cries of heresy, they do not feel like heretics. They feel like Christians. They feel that they are as much entitled to membership in their church as those who condemn them."

Such feelings are shared by Harrison, who himself was forced to resign his post as general secretary of his church's board of religious education last fall after 10 fellow theologians called him a heretic.

"Do not be driven out," he advises. He adds that "mother church is dead" in the sense of being able to impose fixed beliefs. "Any threats that are sounded in her name are idle ones."

He questions such classical Christian teachings as the resurrection, life after death and maintaining "there is no God" in the traditional sense of a "grand being" apart from men, judging, punishing and helping them.

"God is not something other than mankind," he said. "The traditional view of a 'person other than man, greater than man, who has no beginning and no end, who made the universe' and still 'survives His creation, guiding mankind and revealing Himself'."

—The view that God exists, but that traditional theology "has missed the beat in describing Him," and that the big job now is to describe Him more accurately and relevantly to modern man.

—That the word "God has meaning" and that descriptions must be sought within man himself, "in the depth of our being, our ultimate concern," in natural sciences and human relationships.

—That God described by early theology "did indeed exist, but that He no longer exists," having died into human history in the incarnation of Christ as man.

Harrison said his own concept of God was as a "source that lies within creation, within the human race," and not a being apart from humanity. "Human beings themselves are aware of elements in life beyond themselves," he said.

"When we go into depth analyses, we become aware of this dimension, of extra-sensory perception and many other areas of psychological research."

"We discover huge areas of life that are part of us but which can't be explained in human terms, and I don't think they ever will be. The more we discover, the larger are the areas of the unknown."

**HIS VIEW OF GOD**  
He lists various concepts of God which he regards as a Christian, including:

—The traditional view of a "person other than man, greater than man, who has no beginning and no end, who made the universe" and still "survives His creation, guiding mankind and revealing Himself."

—The view that God exists, but that traditional theology "has missed the beat in describing Him," and that the big job now is to describe Him more accurately and relevantly to modern man.

—That the word "God has meaning" and that descriptions must be sought within man himself, "in the depth of our being, our ultimate concern," in natural sciences and human relationships.

—That God described by early theology "did indeed exist, but that He no longer exists," having died into human history in the incarnation of Christ as man.

Harrison said his own concept of God was as a "source that lies within creation, within the human race," and not a being apart from humanity. "Human beings themselves are aware of elements in life beyond themselves," he said.

"When we go into depth analyses, we become aware of this dimension, of extra-sensory perception and many other areas of psychological research."

"We discover huge areas of life that are part of us but which can't be explained in human terms, and I don't think they ever will be. The more we discover, the larger are the areas of the unknown."

## Pope Calls For Unity

VATICAN CITY (Reuters)—

Pope Paul said today unity between the world's 550,000,000 Roman Catholics and other Christians seems to be in sight. But he warned that the road to unity remains difficult, and admitted that his supremacy and infallibility—challenged by Anglicans and other Christians—are among the obstacles.

Speaking at an audience to the Vatican Secretariat for Christian Unity, the Pope assessed the progress of contacts with the Anglicans, the Eastern Orthodox Churches and other Christians towards unity.

He said the current dialogue is intensive, frank and does not seek to side-step important doctrinal differences. "The symphony of dialogues begins thus to expand under various forms and in diverse groups, and seems to foreshadow final harmony in the church which was at the start — we should not forget — only one heart and one spirit."

He said the Vatican is treating the problem of Christian unity as an urgent issue.

**SHOWING THE WAY**  
LONDON (CP) — Liberal party politicians held a press conference aboard a double-decker bus moving through busy London streets to illustrate traffic problems in the British capital.

**Reaching life's important goals**

Sometimes you may wonder, "Can I ever reach the important goals of a fruitful and satisfying life?" Christian Science teaches that you can!

No matter what your background or how limiting your possibilities may seem, worthwhile goals can be won through an understanding of man's spiritual relationship to God.

GERTRUDE E. VELGUTH, C.S., a Christian Science practitioner and lecturer, will explain some of the spiritual steps everyone can take to reach goals of usefulness and happiness. This public lecture is entitled "All the Way with God."

Admission is free, everyone is welcome.

## Both Christians And Reds Celebrating Their Easter

By JOHN BEST

MOSCOW (CP) — Russians celebrate a three-day holiday this weekend, with both Christians and Communists whooping it up together.

The long breather from work results from the fact that May Day, May 1, falls on a Monday. Russians get two days off at May Day. Counting Sunday, that makes a three-day break.

Since many Russian people get off early on Saturday afternoon, it actually comes closer to 3½ days.

May Day is a Communist state holiday. But it happens that this year the Russian Orthodox Easter is exceptionally late and falls this Sunday, April 30.

So there will be something for nearly everyone to celebrate. Fifty years after the revolution, Easter still has a peculiar hold on many Russians who have long since ceased being Christians, or never were Christians.

More than any other church feast day, it has survived as an institution recognized — if not necessarily approved or even understood — by many people who have no connection with the church.

You hear of Russian university students, who wouldn't be in university if they had any strong religious tendencies, going home to their towns or villages for Easter.

You even hear sometimes of good Communists hoisting a vodka to the risen Saviour. It may be simply that Easter falls

at a time of the year, the long winter being just over, when Russians are in a mood to celebrate. And the occasion doesn't much matter.

It may also be that the great feast day of Easter has proven too tough to banish from the popular mind.

Highlight of the Christian celebration is the traditional Easter service in all operating churches, which starts at 11 p.m. Saturday and lasts most of the night.

The faithful bring bread to church to have it consecrated by the priest. This is regarded as an act of profound devotion. As in the West, Easter time is a time for eggs. Russian Christians by custom paint ordinary hard-boiled eggs in a variety of bright colors. One favorite hue is obtained by boiling onion skins.

With the long days of Lenten privation behind them, Russians like to make the Easter celebration count.

"Christ is risen," they cry in proposing toasts of wine or vodka at family gatherings. No irreverence is intended in this happy combination of spirituality and spirits.

The principal state observance this weekend is Monday's traditional May Day workers' parade through Red Square.

Communist party chief Leonid Brezhnev and the entire high command of party and government usually review the parade from atop Lenin's tomb. Similar demonstrations are held throughout the country.

### SAILING OFF ON BELATED HONEYMOON

Pictured aboard Holland-America Line's S.S. Rotterdam, as they sailed from New York on a belated honeymoon to Europe, are Mr. and Mrs. Michael Palmer of 428 Redwood Drive, Pasadena, Calif. Mrs. Palmer is the former Trudy Treadgold of Kelowna.

## Dedication Ceremonies Take Place At Westbank Church

Sunday afternoon's service and dedication in St. George's Anglican Church and adjoining hall, the first taken by the rector, Rev. Norman Tannar, of Summerland, and the second by Venerable Archdeacon D. S. Catchpole, of Kelowna, was largely attended.

In the opening of the new church hall tribute was paid to the late Rex Hardwicke who gave so much to its planning and building, but who did not live to see its completion, by the choice of his son, Daryl, who cut the ribbon, turned the key in the door and pronounced the hall officially open.

Daryl's entry into the hall came last December's confirmation class, and after them the children of the congregation. Next came Archdeacon Catchpole, Mr. Tannar, and bringing up the rear, the congregation. It is only a year ago at the congregational supper marking St. George's Day, 1966, that Col. G. Y. L. Crossley gave a campaign talk concerning the building of the hall, and so inspired his hearers that one year later the hall was officially opened and dedicated.

Here on Sunday, Guild members served afternoon tea, during which three presentations were made on behalf of St. George's parish: the first, an enlarged, framed picture of the Okanagan, was presented to Mr. Tannar, as rector, and inspiration for the hall.

The second, a copy of Frank A. Pearke's "The Anglican Church in British Columbia" was made to the hall's building chairman, Derek Parkes, without whom, parishioners are sure, the dream never would have become fact. In lighter vein, Mr. Parkes also was the recipient of a toy tool chest and kit, signifying not only his determination to get on with the building, but also the large part he had in its actual construction.

The third presentation, made to the designer of the hall, B. A. Trump, whose practical ideas as carried out, will last as long as the hall itself. Already Guild members and parishioners generally have found the well-lighted and well-arranged hall a pleasure to which to work, while on Sunday many visitors also appreciated the work of all those who had a part in building the hall.

Another event to be held soon in the hall will be the home-baking and plant sale scheduled for 10 a.m., Saturday, May 13, to which all interested are invited for coffee, to be served by members of the Anglican Guild.

### ANN LANDERS

#### Object Of This Law To Help Servicemen

Dear Ann Landers: I am 24, married and have one child. Last week I went to a bank to borrow money. I wanted to buy a new car. My credit is A-1, and everything checked out fine. Then I mentioned that I was a member of a reserve unit. The banker gave me a fishy eye and said, "Reserve unit, eh? Well, you'll have to get a co-signer for this loan."

I explained I didn't want a co-signer. I want to be solely responsible for my financial obligations. The banker then quoted a law saying any man who gets called to active duty may be temporarily relieved of his debts. His last words fractured me. He said, "If you get called up we would be stuck for the money until you got back."

I'm so burned up I can hardly see straight. Why should a loyal American who is serving his country by joining a reserve unit be treated this way? CAN'T SEE IT.

Dear Ann: The law that says a service man is temporarily relieved of his financial obligations was designed to help, not hurt, men in uniform. If you don't want a co-signer, go to a bank that does not require one. And more power to you, fella. I like your spirit of independence.

Dear Ann Landers: I have always been high-strung and nervous. A few years ago I had a breakdown and spent several months in a private mental hospital. I still see my doctor because he gives me self-confidence.

My question is this: When friends know you have been hospitalized for mental illness, why do they treat you as if you are some sort of an oddball? I try to be relaxed and behave in a normal manner, but I have the feeling that people are always analyzing me and looking for signs of abnormal behavior.

The only friends I can truly at ease with are those who have had emotional breakdowns.

My husband is a wonderful man and we have four children who are normal and above

#### Art Gallery Holds Pre School Classes

EDMONTON (CP) — "I'm making a green pussycat," said Janet.

"A green pussycat?" said Victoria. "I never heard of such a thing as that."

And she returned to her own painting of a yellow sun, a tree with pink trunk and blue and green leaves, and a pink cow with round red ears and a green face.

Janet, 6, and Victoria, 5, attend the Edmonton Art Gallery's pre school art classes. Every Wednesday, 18 mothers come for their own classes in art history and appreciation, while their children sit on the floor of a paint-daubed room and fill sheets of paper with fantasy.

Downstairs, you can paint the sun on one side of the sky and the moon on the other, and have both day and night in your picture. You can paint an Air Canada plane, wait until the people get on, and paint the door closed.

You can make a bumblebee as big as it deserves to be—three times the size of the red flowers around it.

**RULES ARE EASY**

The first rule is this: Every picture must have a story.

The second rule is: Anything can be inside a picture.

The third rule is: Pictures grow as you paint them.

But the grown-up passion for realism creeps on the young artists. You begin to paint fingers and toes on people. And you expect questions about your paintings to be reasonable.

Victoria had finished a lavender house under a pink moon. "It's a house where people live," she said.

"Is anything happening in the house?"

"Of course not," she said. "They're all in bed."

**LOOKING AHEAD**

Nearly 45,000 children under the age of two were vaccinated in Cuba's recent campaign against polio.

#### Engagement Announced

**LAPEYRE-MORAN**

Mr. and Mrs. Peter J. Lapeyre of Kelowna announce the engagement of their daughter Julie Anne to J. Thomas Moran of Edmonton, Alta., son of Mr. and Mrs. J. H. Moran.

Mrs. W. Perkins of Peace River, Alta., and the late Vincent Moran.

The wedding will take place at 3 p.m. on May 23 in Union College Chapel, Vancouver.

## Make Believe Tea To Open Mental Health Week Here

To open National Mental Health Week in Kelowna on May 1 more than 300 invitations have been sent to members of CMHA, service clubs, and professional people to a Make Believe Tea on TV sponsored by the CMHA.

Each invitation included a tea bag and a blank cheque made out to the association, and Mrs. W. A. C. Bennett will act as hostess at the tea.

On May 10, 17, 24 and 31 the Kelowna Chapter of the Mental Health Association and the Adult Education Department will co-sponsor "Coping or Crying," a lecture film series to be held in the First United Church Hall. There will be a free baby sitting service, and coffee will be served.

Speakers at the lectures will include Mrs. Sylvia McFadyan, kindergarten teacher - training lecturer; Mrs. Bea Deeter, supervisor of co-operative kindergartens; Mrs. Bert Lannone, mother of nine children, and Mrs. Kathleen Trump, supervisor of Kelowna and District Homemakers Services. Interest in the films will be shown in conjunction with the lectures, and everyone interested is invited to attend.

## AROUND TOWN

Following the Yale Bar Association meeting Saturday which will be attended by members of the Bar from Kamloops, Vernon, Penticton and Kelowna, Mr. and Mrs. D. C. Fillmore, Mr. and Mrs. D. E. Jabour and Mr. and Mrs. H. R. Fretwell will entertain the visiting lawyers and their wives at a dinner and dance to be held at the Matador Inn.

Miss Carolee Orme has returned from the University of Victoria to spend the summer in Kelowna with her parents, Mr. and Mrs. F. J. Orme.

Travelling through the Pacific Northwest on behalf of the Royal Hawaiian golf tours are three musicians from Hawaii called, Barney Isaacs, Charles Miller and Chuck Hartman, who will arrive on Sunday and stay over at the Capri Motor Hotel en route from the Coast to Calgary.

Visiting her mother, Mrs. Kenneth Doherty in Kelowna is bride-elect Miss Wilma Oliver from Drayton Valley, Alta.

**BRIDAL SHOWERS**

A number of Kelowna brides to be have been the guests of honor at delightful showers during the past ten days.

Miss Lynn Deschner, whose marriage to Malcolm J. Wignall will take place in May was the guest of honor at a kitchen shower hosted by Mrs. W. H. Wostradowski at the home of her parents, Mr. and Mrs. Roy Wignall in Okanagan Mission, Wednesday evening. The many lovely and useful gifts presented to the bride elect were piled on a table decorated with the illuminated giant ice cream cone in reference to her occupation. She was assisted by her bridesmaid Miss Susan McGovern in opening the gifts.

### Aerial Spraying Aimed At Bugs

WASHINGTON (CP) — The U.S. government with "some reluctance" has approved aerial spraying of DDT poison on 100,000 acres of Maine timber threatened by spruce budworm.

The operation, similar to that carried out in recent years in New Brunswick, will start in June.

Authorization for the project in Penobscot and Aroostook counties came despite the danger of DDT to wildlife, including fish.

But efforts had failed in trying to get a microbe and a small wasp to control the spruce budworm, hatched from moth eggs on needles of the balsam fir.

Officials will try to avoid contaminating rivers and ponds and monitor the DDT content of milk from one dairy farm before, during and after the spraying.

The New Brunswick spraying, resisted by salmon fishermen and other conservationists, led to research which found more DDT had been used than was necessary.

## Royal Academy Examinations Passed By Kelowna Dancers

The directors of the Canadian School of Ballet, Gweneth Lloyd and Betty Farrally are pleased to announce the following successful results in the recent examinations held by the Royal Academy of Dancing.

The major examinations are those for senior students and were held in March. The Ballet in Education are those for the younger students and were held here last week. In both cases the examiner came here from England and is touring Canada for this purpose.

**MAJOR EXAMINATIONS**

**INTERMEDIATE** — Laura Gray (highly commended).

**ELEMENTARY** — Kathy Duffy (honors), Oneka Huitema (honors), Cathy Edwards (highly commended), Stephanie Glover (pass), Lori Bearisto (pass).

### RUTLAND ITEMS

The infant son of Mr. and Mrs. G. Foxall of Sechelt, B.C. was christened at a service held in St. Aidan's Anglican Church recently, while Mr. and Mrs. Foxall were visiting at the home of the latter's parents, Mr. and Mrs. R. G. Ruffin, Clarissa Road. The baby was given the name of David Robert, the Rev. E. S. Somers officiating at the baptismal service. God-parents were Mr. and Mrs. T. A. Williams of Edmonton, Alberta, and Mr. R. E. Ruffin of Westbank. Standing as proxies for the God-parents were Mr. and Mrs. Robert Foxall of Nelson, B.C., paternal grandparents, and Jack C. Kerr, cousin of David Robert.

Mr. and Mrs. Lloyd Masse of Grande Prairie, Alta., have been recent visitors at the home of Mr. Masse's grandfather, Adolph Hugel. Presently visiting Mr. Hugel are his son Henry Hugel of Grande Prairie and a friend William Taylor, also from the Peace River town.

Visiting at the home of Mr. and Mrs. Arthur Gray this week were Mrs. Gray's brothers, William L. Money and James E. Money of Saturnia Island, B.C. and Mrs. J. E. Money. They are on a motor tour of the Fraser Valley, Kamloops and Okanagan districts.

Miss Katherine Schneider is a patient in the Kelowna General Hospital, and is reported progressing very favorably following an operation.

Aubrey Wanless, a former resident of the Rutland district, left for his home in Edmonton after spending two weeks visiting his parents, Mr. and Mrs. L. M. Wanless here. A commercial pilot, formerly with the RCAF, he is employed by the Eldorado Mines to fly supplies to their operations some 600 miles north of the Alberta capital.

(pass), Jeannie Russell (pass), Vernon students, Mary McRoberts (commended), Nan Keady (pass), Gail Monahan (pass), Janet Oxley (pass).

### BALLET IN EDUCATION

**PRIMARY** — Jeanette Ashley (honors), Ingrid Lyne (highly commended), Therese Wood (highly commended), Sheila Denroche (commended), Sarah Innes (commended), Jennifer Jordan (commended), Colleen Light (commended), Devray McKenzie (commended), Patricia Greenough (pass plus), Patricia Linnenko (pass plus), Catherine Talbot (pass plus), Jennifer Vok (pass plus).

**GRADE 1** — Barbara Strange (honors), Marissa (honors), Deborah Woronchuk (highly commended), Cynthia Brackman (commended), Stephanie Durban (commended), Bonnie Atwood (commended), Cheryl Champness (commended), Paula Mazlenki (commended), Kathy Tait (commended), Kim McClelland (pass plus), Cheryl Schneider (pass plus), Sandra Wood (commended).

**GRADE 2** — Candace Kaiser (honors), Lynda Woronchuk (honors), Susan Scorch (highly commended), Ann Warner (highly commended).

**GRADE 3** — Nancy Jurassovich (highly commended), Lindsay Ritchie (highly commended), Shannon Clerke (highly commended), Mary Chaplin (commended), Jocelyn Ellis (commended), Cathy Magel (commended), Kim Davis (commended), Elaine Found (pass plus), Sylvia Slater (pass plus), Heather Knoll (pass), Jane Wace (pass), Karen Wjenberg (pass).

### VERNON STUDENTS

Sydney Jones (honors), Mary Jane Nickel (honors), Joy Fisher (highly commended), Beth Ross (highly commended), Linda Gordon (highly commended), Heidi Wunderli (commended), Charlene Stecyk (pass).

**GRADE 4** — Ann Ellis (honors), Jan Cretin (highly commended), Sheila Marshall (commended), Diane Gately (commended), Linda Stranaghan (pass plus).

#### ROUGH ACTION

The action got rough in the second period of the Montreal Canadiens - Toronto Maple Leafs Stanley Cup final playoff game when Brian Conacher (22) of Leafs mixed it up with Montreal's Claude Larose. During the

### Thetford Mines Holds Own Against Powerful Marlboros

THETFORD MINES, Que. (CP) — Thetford Mines Canadiens appear to be holding their own against the powerful Toronto Marlboros.

The Canadiens have a tough grind ahead of them in their bid to advance to the Memorial Cup hockey finals but they took a step in the right direction Friday night.

The young champions of the Quebec Junior A Hockey League stalled a third period rally by the Marlboros and held on for a 4-3 victory to even the best-of-five Eastern Canada final series at one game each.

Gilbert Perreault, Marc Tardif, Pierre LeBlanc and Rejean Houle scored for the Canadiens and Mike Byers, Al Osborne and Cam Crosby for the losers.

The Canadiens appeared to have the game in hand as they started the third period with a made it 4-1 when he broke in came on with two goals to narrow the gap to 4-3 and move right back into contention.

However, the Canadiens checked Toronto for the last five minutes of the game, preventing the Marlboros from getting any good scoring chances.

Both goaltenders, Bob Whidden of Toronto and Pierre Chagnon of the Canadiens, came up with sparkling performances.

Thetford Mines had 35 shots at Whidden while the Marlboros directed 34 at Chagnon.

Perreault gave the Canadiens a 1-0 lead at 5:43 of the first period and Tardif increased Thetford Mines' lead to 2-0 with his goal a little more than eight minutes later.

Perreault was the best on Byers' goal as he was serving a minor penalty when the Toronto player narrowed the Canadiens' lead to 2-1 at 17:01.

The Canadiens went ahead 3-1 at 8:59 of the second period when LeBlanc scored and Houle made it 4-1 when he broke in alone on Whidden and scored unassisted at 18:18.

However, the Marlboros weren't out of the game and Osborne cut Thetford Mines' lead to 4-2 at 7:32 of the third period. Crosby brought Toronto to within one goal of tying the game when he connected at 14:48.

A total of 18 penalties were called, including four majors. Toronto took 11 of the 18 penalties. Mike Polyk of the Marlboros took four minors and Whidden was given a minor and a major.

## Lonborg Forgets Finesse To Chagrin Of Kansas City

By BOB GREEN

Associated Press Sports Writer

Lanky Jim Lonborg was too fine. Now he's not so fine. Which is much better.

Boston Red Sox manager Dick Williams explained:

"His trouble has been his control. He's been trying to pitch to spots—trying to pitch too fine."

So Friday night Lonborg forgot the finesse, just leaned back and let fire with his fast ball. The result: A six-hit, 3-0 shut-out of Kansas City and 13 strikeouts, high for the American League this season.

Lonborg, who had failed to last more than 6 1-3 innings in last previous starts, did not walk a man.

#### HAD TO BE GOOD

He needed to be good. The Athletics' Jim (Catfish) Hunter pitched hitless ball and struck out 10 before leaving for a pinch hitter in the seventh.

In the other American League games, all at night, Baltimore took over sole possession of the top spot with a 5-3 edge over Detroit. New York broke its homer drought in a 5-4 squeaker past California. Chicago White Sox beat Cleveland 3-2 and Minnesota whipped Washington 7-3.

Lonborg, a 6-foot-5 right-hander, used 133 pitches in his sparkler at Boston. He said he relied primarily on his fast ball for the first seven innings, then went to a sinker.

Two of the Athletics' six hits were of the infield variety.

The Red Sox gave big Jim all the support he needed in the

fifth when George Scott led off with a single, Boston's first hit off Hunter. Mike Andrews doubled Scott home. Singles by Lonborg and Reggie Smith sent Andrews across.

#### YANKS BREAK DROUGHT

The Yankees, who hadn't had a home run since opening day, got homers from Tom Tresh and Steve Whitaker in the victory over the Angels. But it took a sacrifice fly by Elston Howard in the eighth to drive in the run that snapped a 4-4 tie. Don Mincher had a three-run homer for California. The Yanks' 10-game stretch without a homer was the club's longest since 1944.

Curt Blefary crashed a grand-

slam homer in the first inning that pointed Baltimore to its triumph. Al Kaline homered for the Tigers and was robbed of another by Blefary's leaping catch in the fifth.

Bob Allison drove in three runs with a single and a homer and Harmon Killebrew cracked a two-run homer in leading Minnesota past Washington. Frank Howard had a three-run homer for the Senators in the first but the Twins' Dean Chance stopped Washington without a hit for the next seven innings.

Don Buford singled across two runs with one out in the bottom of the ninth and lifted the White Sox over Cleveland.

## Clay Fighting Legal Battle To Stay Out Of Jail And Army

HOUSTON, Tex. (AP) — Cas-

Clay's lawyers prepared fresh tactics today in their intricate offensive to save him from jail and a stiff fine for refusing to heed his draft call. As 10 other draftees stepped forward to take the army oath Friday, the 25-year-old Clay did not move, fulfilling his promise. He says that he is a Black Muslim, minister by vocation and a boxer by avocation and that war contradicts the teachings of his faith.

Clay's removal was swift. The New York State and the World Boxing Association weight title and announced they would select his replacement.

Clay was undergoing his round of physical examinations, which are completed satisfactorily, five of the Negroes outside the customs house turned papers they said were "draft cards. None were arrested."

#### BURN DRAFT CARDS

Hayden Covington of New York and Quinn Hodges of Houston told the U.S. Fifth Circuit Court of Appeals in New Orleans, La., Friday that they would appeal the ruling of U.S. District Court Judge Allen B. Hannay in Houston in refusing to hear Clay's suit challenging the composition of the selective service system. The suit

perhaps as much as two years." Maximum sentence would be five years in jail and a \$10,000 fine.

Clay preached a sermon Friday night at a Muslim Mosque in Houston, his adopted hometown. He shied away from reporters, preferring to stand on the signed, flowery, four-page statement he doled out after Friday's four hours of military procedures.

It read something like a last will and testament, naming those who have helped him from his beginnings as the shy, 1960 Olympic boxer, through his days as the boasting quick-witted pro champ and to his present role as a critic of war and American society.

## EARN 7% SAFELY

## SPORTING VIEWS

By RICHARD VIVONE

I wasn't always built so beautifully. When I was a kid, and some think I still am, my racing lines tended to straightness instead of in globular directions. In those days, I played sports instead of talking and writing about them.

The old home town was one typical of Northern Ontario—lots of brush, mud, snow and alcoholics. Green grass was an oddity around that area. It wasn't even regular, coming once every odd year.

Small towns like that (by small I mean with a population of 2,000) have a distinctive air about them. Everyone knows his neighbor. Strangers are stunned and sometimes don't last. But when you have a friend—a very special one—it takes a lot to make an enemy of him.

I had one such buddy when my 10th birthday rolled around. He was the type of guy who came to the birthday party and ate all the ice cream, opened my presents and was willing to relieve me of any not catering to my tastes.

He was the type of kid who could climb trees faster, run farther quicker, eat more and still stay skinny and worst of all, he was a better ball player.

He was the type of 12-year-old who phoned every morning to find out what time I was leaving for school so we could link out and play hockey together. He also used to help me when the town bully tried to throw me in the lake.

He was a great kid—for a while. Just about that time, the do-gooders in town figured the kids had nothing to do in the summer besides swim, hunt, fish, fight and beat up girls. These parents wanted to make sure we couldn't get into trouble.

These menacing freedom destroyers got the whole gang together one day and laid down the law. The town council, consisting of everyone too old to be of use anywhere else, decided to form little league baseball.

It was a great day for the parents. Some almost wept as their little heroes ran onto the field that first day. Most of them didn't come around again that summer. The ones that did could be heard all over town.

But the ball season was a good one. My friend and I were on the same team—the Cardinals—and we took turns being Stan Musial and Enos Slaughter. Whoever got the most hits that day was Musial. I was Slaughter all summer.

Satisfied that they had a good product, the well-meaning elders were determined to go farther. They bought new uniforms and caps to match and would chose an all-star team to play in the regional playoffs.

It caused a silent and unholy war in town. This is why. The team was picked after the last regular league contest. There were—about 80 kids lingering around the bench waiting for the big people to make up their minds. It was the first time in that short, happy life that I looked sideways at the kids next to me.

Slowly, antagonizingly, they called out names. One by one the positions were filled. First, the starting nine, then the extra pitchers, then the utility men.

As each name was called out, my ticker sank lower and lower. If I pulled down my socks, my thumping heart would surely bare itself.

I kept watching my buddy out on the field—he was the chosen right fielder—and he was duly happy with himself.

Finally, as the last guy was selected, the tears could no longer stay inside and I ran home—just ran and ran and ran.

From that day on, he wasn't my buddy any more. We had been introduced to the school that recognizes the excellent class. They all told me and the world that he was better than I and about four dozen other kids. They weren't much happier.

And that is what all star teams do. They turn kid against kid, buddy against buddy, friend against friend. It does to every 10-year-old. It has to— they don't know any better.

When the fellows are older, it doesn't matter too much. There is always the pool hall or the coffee house.

But what are the hundreds of thousands of kids who don't make these teams going to do when their number one chum is on it. When you are 10, it makes a lot of difference.

## Cards Dealt Losing Hand — Bob Grows Even Bigger

By MIKE RECHET

Associated Press Sports Writer

Bob Veale, already 6-by-6 must feel about eight feet tall now after finally slicing St. Louis Cardinals down to size.

The giant Pittsburgh left-hander looked more like a mid-get chopping away at the Cardinals in vain for 2½ years, but Friday night he stood over them with a 6-2 victory.

The triumph was the first for Veale over the Cardinals since July, 1964, and gave him half of Pittsburgh's six victories this season—he has yet to lose—as

he continues to grow in stature as one of the National League's best hurlers.

Atlanta Braves also faced a giant obstacle, an 8-0 deficit, but rose to the occasion and overcame Philadelphia Phillies 9-8.

First-place Cincinnati continued to stand tall with a 7-1 victory over New York Mets while Houston Astros outlasted Chicago Cubs 5-4 in 13 innings and San Francisco stopped any growing pains Los Angeles entertained, 5-4.

Veale, who had lost six

## We Play Like That Sometimes Says Fenton As Royals Lag

FORT WILLIAM (CP)—“We

play like that sometimes,” said coach Bob Fenton after a 10-1 drubbing in the third game Friday night dropped his New Westminster Royals one game behind Port Arthur Mares in the Memorial Cup western final.

“But things will be different at home,” he vowed, announcing his intentions to call up reserves Frank Spring, Ken Winkowski and Ken Love.

The best-of-seven junior hockey series will be completed in New Westminster, where the fourth game is scheduled Sunday.

Eight goals by the newly-formed unit of Chuck Kelner, Tim McCormack and Ray Adduono were the keys to the trouncing, which left Fenton still not convinced of Port Arthur superiority. Kelner scored five goals, McCormack two and Adduono one.

“Edmonton beat us 11-2 but we came back and won that series,” he said referring to the western quarter-final which Royals captured in seven games from Edmonton Movers.

Mares hit hard. “Our boys played the way they’re supposed to play,” said Port Arthur coach Ab Cava. “They were hitting and playing their positions. They started in the third period of the second game and just carried on.”

Friday night’s clash was the hardest hitting of the series, resulting in 18 penalties including four majors.

It was before the third period of Thursday night’s second con-

test that Cava decided to put Kelner, a pickup from playoff victims Geraldton Gold Miners, alongside veterans Adduono and McCormack. Kelner broke a 2-2 tie just 58 seconds into the period and Mares rolled on to win 5-2. Royals had won the first game 6-5 in overtime.

McCormack now has seven goals in the series, Kelner six. Adduono, three-time Thunder Bay scoring champion, has nine assists and two goals.

Cliff Stewart got the other two Port Arthur goals, contributing to an 8-0 margin Mares built up before Ray Allegretto broke goalkeeper Johnny Adams bid for a shutout at 15:16 of the third period.

## Golfers Honored

TORONTO (CP)—George Knudson and Gary Cowan, Canada's leading professional and amateur golfers, were among 54 persons honored Friday night by the Ontario Golf Association at a centennial dinner for their contribution to golf in the province.

Knudson, a native of Winnipeg now playing out of Toronto, won the individual championship in the 1966 Canada Cup matches in Tokyo and has represented Canada in many international tournaments. He also is a regular on the United States pro tour.

Cowan, who lives in Kitchener, won the U.S. amateur title in 1966 and was chosen for the men's world amateur four times. He was named Athlete of the Year in Ontario last year.

Others honored Friday night included: Al Balding, Toronto, first Canadian to win a tournament on the U.S. tour; Gerry Kesselring, Kitchener, Ontario

eight-run lead with a three-run homer and a run-out as the Braves scored five times in the fourth and three in the fifth. Aaron then singled Felipe Alou to third in the ninth, where he scored on a fielder's choice.

WIN 3RD IN ROW High-riding Cincinnati won its third straight and eighth in nine games on Sammy Ellis' six-hitter, including Ed Kranepool's homer for the only Met run. Vada Pinson and Pete Rose buried the Mets with three hits and two RBIs each.

Eddie Mathews was the big man for Houston as he tripled leading off the 13th and scored on Aaron Pointer's sacrifice fly in an up-and-down contest.

## SHELL CENTENNIAL 4000 RALLY

On May 3rd, more than ninety cars will leave Vancouver on a gruelling 4,500 miles to Montreal's Expo '67. Top international rally drivers in North America's longest rally — sponsored by Shell Canada Ltd.

This year is a very special year for Canada. So, this year's Shell 4000 rally is a very special rally. It's the Shell 4000 Centennial Rally.

All the glamour and excitement of Centennial year will be dramatically combined with the adventure and thrills of North America's longest car rally. The rally will travel through 15 major centres, including Ottawa and four provincial capitals.

Civic and provincial groups will meet the rallyists and send centennial greeting to other communities along the route. And it all winds up May 10 in Montreal at the world's largest birthday party—Expo '67.

To help get top performance rally cars use Shell products. These

products, which are available at your local Shell station, include:

- Super Shell with Platformate, the good mileage gasoline.
- Shell Super Motor Oil. One oil for all cars, all seasons, all driving conditions.
- Shell Darina AX grease. Shrugs off water and salt and doesn't melt at high wheel-bearing temperatures.

The Centennial 4000 is bigger and better in several ways. The duration has been increased from six days to eight days. There will be more cars. And more prize money. A total of \$15,000.

As usual, the Shell rally will be one of five events counting towards the World Rally Championship.

It's an exacting, demanding test of driving skill, car reliability and gasoline performance.

Shell Rally ends May 10 at the Automotive Stadium amidst the glamour and excitement of the Expo '67.

One of the reasons Shell sponsors the Rally—and contributes to motor sports throughout the world—is to demonstrate their products under extreme driving conditions. This is one of the ways Shell makes certain their stations offer you the finest gasolines, motor oils and greases available.

## 'THE BIG ONE SHIPPED'

## Silver Much-Travelled

By BRUCE LEVETT  
Canadian Press Sports Editor

Every spring at the Hockey Hall of Fame in Toronto an impressive collection of silverware is removed from the showcases and shipped off to one or another of the National Hockey League cities.

These are the NHL's trophies—the Stanley Cup, the Prince of Wales, Hart, Lady Byng, Calder, Vezina, Ross, Norris, Conn Smythe and Lester Patrick.

“We are proud of these trophies,” says league president Clarence Campbell. “There are no commercial attachments to any of them, nor to the awards that go with them.”

At present, not one remains at the Hall of Fame, where the trophies spend about seven months a year on display. Several have already been formally presented to this year's winners and the big one, the Stanley Cup, has been shipped to Montreal to await the result of the playoffs between the Canadiens and Toronto Maple Leafs.

### DIED OF TB

Only one of the trophies is named for a man who was an NHL player but never a team or league official. Leo Dandurand, Louis Lefebvre and Joe Cattinich, former owners of Canadiens, put up the Vezina 40 years ago in memory of Georges Vezina, the Chicoutimi Cucumber.

Vezina played 15 years in goal for Montreal. In a day when goalies were not allowed to drop to their knees he was noted for his remarkable ability to smother a rebound while standing up.

Vezina went into a game against Pittsburgh Nov. 28, 1925, complaining of a temperature and severe chest pains. He collapsed during the game and died a few months later of tuberculosis.

The trophy which honors him is given annually to “the goalkeeper or goalkeepers having played a minimum of 25 games for the team with the fewest goals scored against it.”

The Duke of Windsor, when he was the Prince of Wales, donated the Prince of Wales trophy in 1924 to “the team finishing in first place at the end of the regular championship schedule.”

### DONATED IN 1923

The original Hart Memorial Trophy was donated to the NHL in 1923 by Dr. David A. Hart, father of Cecil Hart, former manager of the Canadiens. The trophy was turned to the Hockey Hall of

Fame in Toronto in 1960 and a league trophy, perpetuating the name, was put up for “the player adjudged to be most valuable to his team.”

Lady Byng, wife of Canada's Governor-General, presented the trophy which bears her name in 1925 for “the player adjudged to have exhibited the best type of sportsmanship and gentlemanly conduct combined with a high standard of playing ability.”

Frank Boucher of New York Rangers won it seven times in eight seasons and was given the trophy to keep and Lady Byng donated another one in 1933. When she died in 1949, the league presented a new trophy, calling it the Lady Byng Memorial Trophy.

### BOUGHT TROPHIES

The rookie award, “to the player selected as the most proficient in his first year of competition,” is the Calder Memorial Trophy, named for former president Frank Calder. Each year from 1936 until he died in 1943, Calder bought a trophy for the outstanding newcomer.

After his death, the NHL established the award in his name.

The Art Ross Trophy was presented to the NHL in 1947 by the former manager-coach of Boston Bruins. It goes to the regular-season scoring leader.

The name inscribed each year on the James Norris Memorial Trophy is that of “the defence player who demonstrates... the greatest all-around ability.” It was presented in 1953 by the four children of the former owner, president of Detroit Red Wings.

The “most valuable player for his team in the entire playoffs” wins the Conn Smythe Trophy, presented by Maple Leaf Gardens Limited in 1964 to honor the former coach, manager, president and owner-governor of the Toronto team.

FOR U.S. SERVICE New York Rangers, in 1966, established the Lester Patrick Trophy to honor their former general manager and coach who took his team into the playoffs for 16 consecutive years. It is for “outstanding service to hockey in the United States.”

Towering over them all now is the Stanley Cup, almost universally as new names are added each year.

It is awarded to the team winning the NHL's best-of-seven first playoff round and is the oldest trophy competed for by professional athletes in North America.

Donated by Frederick Arthur, Lord Stanley of Preston, son of the Earl of Derby, in 1893, it was purchased for \$48.67 for presentation to the amateur hockey champions of Canada.

Since 1910 it has been the symbol of professional hockey supremacy.

Today it carries an award totalling \$110,250, which is divided among the winners of the semi-finals and final.

### REMEMBER WHEN...

By THE CANADIAN PRESS Sugar Ray Robinson, five times world middleweight boxing champion between 1950 and 1959, was still busy two years ago tonight—in 1965—in the ring at Norfolk, Va., with Rocky Randall. Robinson won by a knockout in the third round.

To get top performance from their cars, drivers in the Shell 4000 Centennial Rally use Shell petroleum products. These same products are available at your local Shell stations.

## There are more than 40 different kinds of cars in this year's rally.

More than ninety driver-navigator teams from four countries—Canada, U.S., Britain and France—will drive cars manufactured in eight different countries in the Shell 4000 Centennial Rally.

Here's a list of the countries and cars:

Japan: Datsun 1300, Datsun 1600, Isuzu Bellett GT.

France: Citroen DS 21, Renault R8, Renault R10.

Italy: Fiat 850, Alfa Romeo Giulia Super.

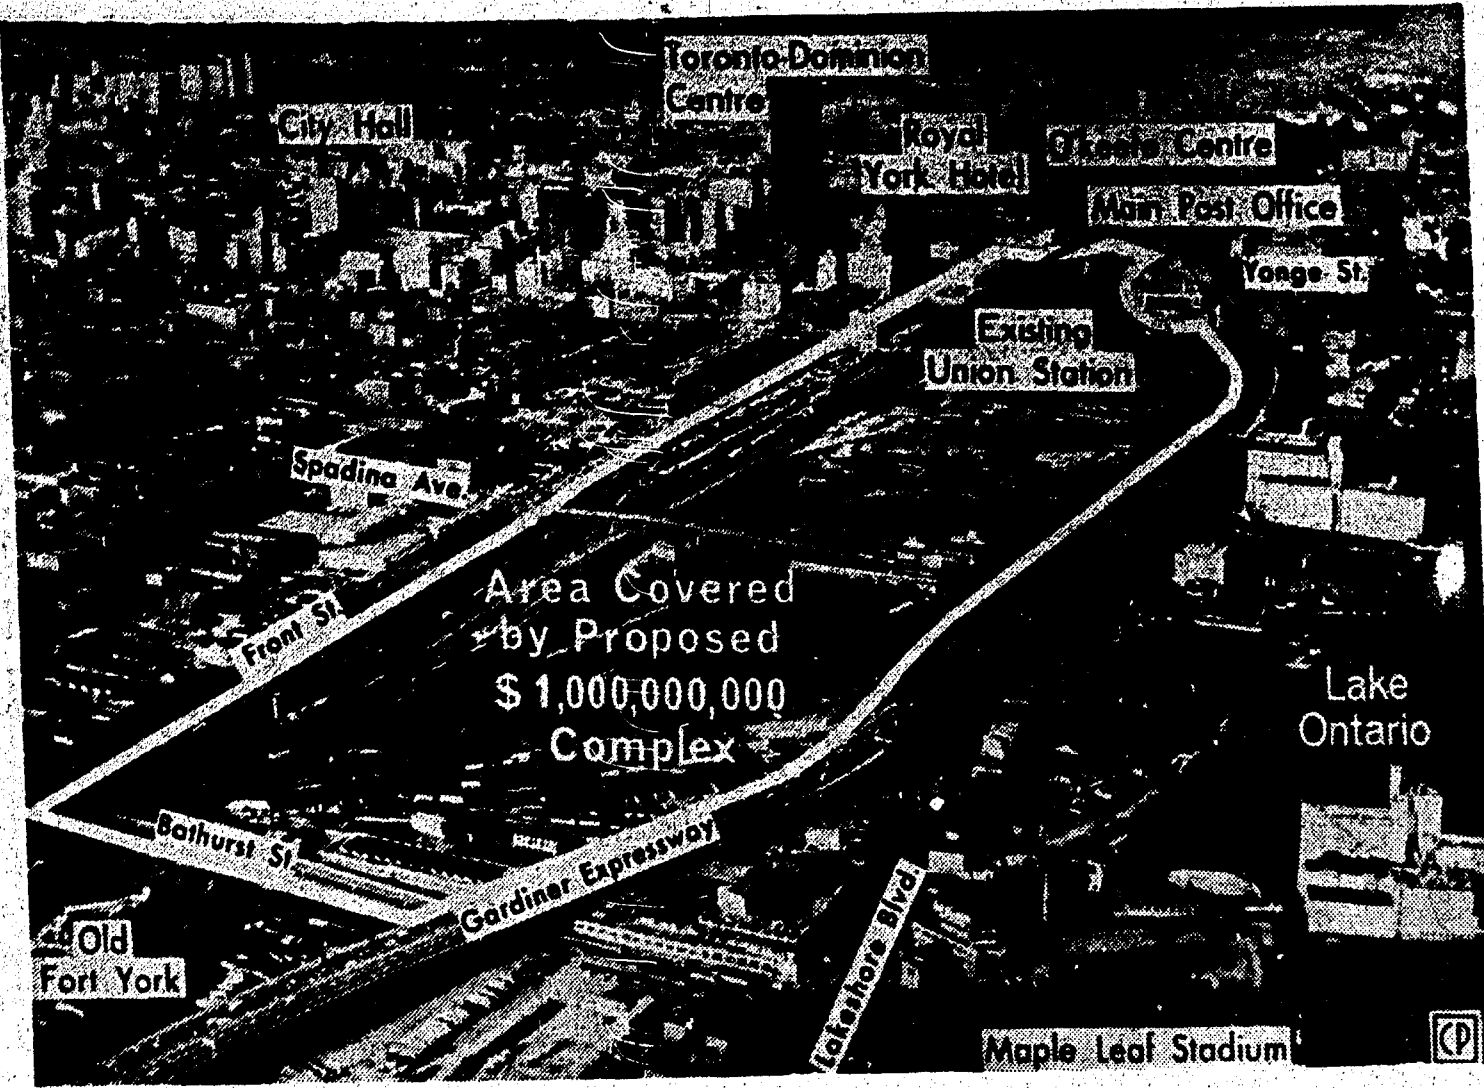

Sweden: Volvo 122S, Volvo 123 GT, Saab MC 450, Saab 96S.

United Kingdom: Austin 1100, Austin Mini-Cooper, MGB-GT, Lotus Cortina, Cortina GT, Anglia Super, Consul, Triumph TR 4A, Triumph 2000, Rover 2000, Jaguar XKE, Sunbeam Imp.

Shell Centennial 4000 will stop overnight at seven cities.

DOWNTOWN COMPLEX

A new \$1,000,000,000 development near the Toronto waterfront would turn an existing tangle of railway tracks and buildings into an above-and below-ground complex along the line of Montreal's Place Ville Marie. To be built over the next 25 years, the project would cover 170 acres bounded by Yonge, Bathurst and Front streets and the Gardiner Expressway. Property includes railway yards, the existing Union Station and the main post office.

## Anglican Church Women Hold Pentiction Meeting

VERNON — A gathering of 112 registered women, plus guests, at St. Saviour's Church, Pentiction, April 25 and 26 was the 51st annual meeting of the Kootenay Diocesan Board's former Women's Auxiliary, but the first under its new name of Anglican Church Women. "Blessed are ye that sow beside all waters" ran the text on literature.

Presiding was president Mrs. N. O. Solley, of Summerland. Conference theme was "Renewal in This Hungry World," which commented Bishop E. W. Scott, started with individuals.

The Parish Hall and dining rooms were decorated with arrangements of fruit blossom, native sunflowers and spring blooms. Hospitality was generous and profuse—afternoon tea, morning and evening coffee being served, as well as lunch and dinner.

Bringing greetings was Pentiction's Act Mayor, (Mayor Maurice Flinnery was in Montreal for the opening of Expo 67), representatives of the Catholic Women's League, the Presbyterian and United Churches of Pentiction. Said the CWL representative: "Together we should accomplish much."

Each of the two days commenced with celebration of Holy Communion in the stone church of St. Saviour's. Bishop Scott, was celebrant the first morning, and preached.

"It was most inspiring," said those attending, to see a large group of dedicated Christian women worshipping together, who had travelled from Golden to Revelstoke, through the Okanagan and from the Kootenay Valley. Bishop Scott used the office of Baptism as his sermon theme, and its application in the lives of all Christians, and the ACW in particular.

In her report, president Mrs. Solley noted that every year the attendance at the (now) ACW annual meeting grew larger. She emphasized the acknowledged and inevitable change of the times, and in recognizing centennial year, said it was time to think of Canada's second century.

Mrs. Solley was of the opinion that women could contribute as much to the life and times of their church and nation as men.

## Cult Growing Around LSD 'Much Like Early Christians'

LOS ANGELES (AP)—A psychologist says the cult springing up around LSD is in its vital stage, "much like the early days of Christianity."

Dr. William H. McGlothlin, research psychologist at the University of California at Los Angeles, says "The value system of the hippies of the LSD movement is quite similar to those of Christianity, which propose loving co-operation and de-emphasize wealth and material gain."

Dr. McGlothlin has spent six years studying LSD effects. A report on his two-year study for the National Institute of Mental Health was released today.

In an interview, Dr. McGlothlin said he spent many weekends with hippies in the San Francisco and Los Angeles areas and found they ignore the economic necessities, such as making a living; they fail to appreciate the personal satisfaction of developing skills and discipline, and develop a strong tendency toward non-rational thinking.

On the other hand, he said, "they serve a positive role, similar to the traditional 'devil's advocate,' in pointing out the inconsistencies and the hypocrisy in society, those blind spots hard to see from within the establishment."

"The hippies have taken what the humanists have been saying and are carrying it all the way. The ultimate conclusion says, 'Throw out all of Western achievement—oriented society with its competitiveness and create a society based on love and co-operation.'"

McGlothlin said: "The LSD user often describes himself as more soft, loving and tolerant, with less aggression, egocentrism and anxiety."

However, he added, "This sort of LSD-induced 'wisdom' is not accompanied by solutions for some basic demands of reality."

## KELOWNA'S CALCUTTA CUP

Following is a list of the tee-off times for the Spring Calcutta, starting Sunday:

7:31 B. McGee, G. Aquilon, Dr. R. Ferguson, B. Wilson, G. Gades, R. E. Holland, 7:45 R. Saunders, D. Kinney, R. Curtis, E. Evans, 7:52 J. Kaiser, V. Trent, B. Field, B. Knutson, 7:59 P. Scramstad, J. 9:58 STARTERS TIME, 10:05 A. Anderson, A. Jackson, B. Mooney, J. Keenan, 10:12 D. McKee, J. Van Hees, K. Tarsia, A. Eastham, 10:19 R. McPadden, M. Eladon, G. Munch, J. Wallace, 10:26 M. Stanton, J. Botham, J. Whillie, N. Reese, 10:33 B. McCormick, J. Wright, Dr. F. McNair, D. Krochinsky, 10:40 B. Ragun, S. Craik, J. Tavis, J. Gordon, 10:47 Dr. C. Henderson, H. Hansen, J. D. Lane, L. Norris, 10:54 STARTERS TIME, 11:01 J. Greenlay, G. Takoff, L. Matusda, C. Irish, 11:08 F. Orme, T. Walker, S. Jameson, J. Henshaw, 11:15 F. Kitch, P. Duffy, K. Umoto, R. Pollard, 11:22 B. Johnson, B. Poelzer, C. Pettman, D. Purcell, 11:29 H. Ito, D. Phelps, A. McKenzie, Herman Hansen, 11:36 D. Day, T. Reynes, J. Trewhitt, H. Denny, 11:43 H. Johnston, M. Conklin, J. Fluncane, B. Meikle, 12 Noon B. Kane, R. Donaldson, M. Young, J. Gibb, 12:07 D. Watkin, V. Jarvis, B. Ryder, D. Bulatovich, Team captains are asked to make sure of their tee-off times. The qualifying round for the Kelowna Golf and Country Club championship is May 14. The draw sheet for the Eric Loken Trophy has now been posted. The first draw will be posted May 14.

## Peachland Manages Cut In Mill Rate To 49.5

PEACHLAND — The municipal budget for 1967 was discussed, reconsidered and finally passed at Wednesday's meeting of the Peachland municipal council. Even with increases in school costs, debt purposes, the council has managed to decrease the mill rate by 5 to 49.5 mills in 1967.

The breakdown is as follows: General purposes 12.41; debt purposes 5.90; school purposes 31.19.

The reeve and council were disturbed about the small grant School District 23 received from the provincial government. Reeve Thwaite stated that taxes cannot keep going up and up, and in Peachland council feels that they must hold the line if the council is to induce people to settle in the area.

C. O. Whinton attended the council meeting to ask permission to bring a pipeline under Princeton Avenue. He will detour traffic through his property while this is being done. Council agreed to Mr. Whinton's request providing the road is restored to the same condition as before.

A request by the Okanagan Regional Library for information on the possible population increase in the district was handed to the clerk who was instructed to send figures as published from the newly-received planning study.

Clerk H. C. MacNeill reported that letters have been sent people concerned of the special

meeting to be held on the replotting of Block 490 at 7:30 on May 3.

A letter was read from A. M. Moore complaining about the extra \$3.50 being charged for water at his rock shop, stating as this water comes from the hot water tank in his home he does not feel it constitutes a separate outlet. Councillor Stuart will contact Mr. Moore and explain this new ruling.

S. A. Holmes, the owner of the former K. Domi property, attended council with inquiries about building a family cottage.

A letter was received from Roy Johnston offering to buy municipal property bordering his own property. Clerk was instructed to write Mr. Johnston and inform him that no municipal property is for sale at the present time.

A letter was received from Mrs. J. G. Sanderson thanking council for flowers sent to W. B. Sanderson while he was in hospital.

A request was received from Mrs. Helen Kay asking that permission be given for a Webber reploting meeting of Block 490. Council agreed.

A petition to the provincial cabinet was read at council. This deals with By-law 424, pertaining to the stopping up of 9th and 10th streets and By-law 425 which pertains to the closing of connecting roads between Beach and Lipsett Avenues and a 16 foot portion of Lipsett Ave. The clerk was instructed to forward the documents to Victoria.

with council. Council agreed to grant the same terms as given to Mr. Seed in this matter. Mr. Chippendale is to have a legal agreement drawn up to be presented at the next council meeting.

Mayor L. Mercier of Vernon wrote inviting participating of council at a Shuswap Canal project meeting to be held at 8 p.m. May 4 in Vernon. Councillor Beet will be asked to attend this meeting.

Mr. and Mrs. G. Wallace and G. Smith attended council to ask about surveying of road near their properties. Reeve Thwaite informed them that survey costs for this would be quite high, and suggested that Inland Natural Gas Company be asked to construct a pipeline along the lower fence line so that this road can be straightened at some future date when some funds are available. Petitioners were in agreement with this suggestion.

## WELCOME to the BABIES of the MONTH

Congratulations to All Those Brand New Moms and Dads!

We've just heard about the exciting new "happenings" in our community! To all the proud parents go our congratulations. And to the newest members of our community a fond welcome. We are ready and waiting to serve your every need.

Does a Little Addition Equal More Space at Your House?

Little babies take up a lot of room for their size! If you're looking for another home, look no further! We'll find the home of your dreams, for the price you specify.

♣ A9

The bidding:  
East South West North  
1 ♠ 2 ♠ 2 ♠ 3 ♠  
3 ♠ 5 ♠ Pass Pass  
Dble

Opening lead—king of spades.  
Bridge is not a lazy man's  
game. You have to take time  
out occasionally to think. To  
play mechanically and without  
thought is bound to lead to poor  
results.

Take this hand where South  
got to five diamonds doubled.  
West led the king of spades and  
continued with a spade which  
declarer ruffed. After forcing  
out the ace of trumps, South  
had an easy time making 11  
tricks; his club loser went on  
dummy's fourth heart.

But the contract should have  
gone down one. East should

have overtaken the spade king  
with the ace and led the king  
of clubs. Had he done this,  
South would have been defeated,  
for he would have had no way  
of avoiding a club loser.

Actually, this was not a dif-  
ficult play to make. The only  
thing hard about the play is to  
overcome the natural reluctance  
to waste an ace on partner's  
king.

However, a little thought  
should convince East that the  
right play is to overtake the  
king. There are a sufficient  
number of clues to be gathered  
from the bidding, the opening  
lead and the appearance of  
dummy's hearts to persuade  
East of the need for a prompt  
shift to clubs.

West's spade raise must have  
been made with either three,  
four or five spades. If West has  
five spades, no harm can come  
from playing the ace since de-  
clarer is void of the suit.

Similarly, if West has four  
spades, South has one, and East  
can easily afford to play the ace  
in order to make the vital club  
shift.

Even if West has only three  
spades, the ace play does no  
harm. That is because West is  
marked by the opening lead  
with the queen of spades as well  
as the king. (If West originally  
had the K-9-2, he would lead  
the deuce. With the K-Q-2 or  
the K-Q-9-2, he would lead the  
king.)

All signs point clearly in one  
direction. East must overtake  
the king with the ace.

YOUR HOROSCOPE

**FOR TOMORROW**  
Excellent planetary influences will make Sunday a fine day on the personal score. Stars favor romance, travel and group activities generally. If work is on your agenda, best stick to routine. New ventures at this time don't seem to show much promise.

**FOR THE BIRTHDAY**  
If tomorrow is your birthday, your horoscope indicates that it would be advisable to take advantage of all opportunities to advance now—especially on the job score. Even though results may not be immediate, stars promise gratifying recognition for past efforts and openings for further progress in late July, September, early December, next January through March.

Where finances are concerned, look for some small but pleasing (because unexpected) gains during the first two weeks in August, and a truly excellent period in which to increase assets between mid-September and mid-November, but do be conservative—especially during the first two weeks of September. No speculation then!

In fact, the Taurus should take no monetary risks for at least 12 months. Another up-trend on the fiscal score is indicated during the first two weeks of December—a springboard to further gains next February and March.

Stimulating social activities and happiness in romance should enliven this new year in your life, with the periods between now and September 15th and between November 15th and January 1st especially interesting. Next good months for sentimental interests: April and May of 1968.

A child born on this day will be intellectually inclined and a true humanitarian, but will have to curb strong tendencies toward obstinacy.

**THE DAY AFTER TOMORROW**  
You may incline toward scattering your energies on Monday, trying to carry on a dozen

activities at one time, but you will accomplish nothing by so doing. Base your program on essentials only, and complete one undertaking before you start another.

**FOR THE BIRTHDAY**  
If Monday is your birthday, your horoscope indicates that, as a Taurus, your extraordinary ability to plan well, and your shrewdness in recognizing opportunities which others would pass up, could help to further career goals considerably — even though monetary rewards may not be immediately forthcoming.

Chance of every chance to forge ahead between now and the end of August since, during the month of September, you will not only receive gratifying recognition for your efforts, but will then be able to take further steps toward greater achievement — notably in early December, next January, February and March. In financial matters, you can look forward to some small, but cheering gains within the first two weeks of July; then, for excellent opportunities to increase assets between September 15th and November 15th; also, during the first two weeks of December, next February and March. But do manage conservatively. No speculation for the next 12 months!

This new year in your life should be outstanding in social and romantic areas, with best periods, in 1967, star-promised between now and September 15th and between mid-November and December 31st. Other good months: Next April and May. Most propitious months for travel will occur early in 1968.

A child born on this day will be extremely shrewd in seeing business and financial opportunities but, being extremely conservative, may need a more dynamic person, such as an Aries or a Leo, to "push" him into taking advantage of them.

Now: conventional residential mortgages with loans up to \$50,000 or as high as 87 1/2% of the property value.

Can you call a loan like that conventional? You'll find a little extra something inside

Most conventional mortgage loans have been limited to 75% of the appraised value or selling price of the property. And, as far as we're concerned, that's conventional. At the Bank of Nova Scotia, you can arrange a conventional residential mortgage loan for up to 87 1/2% of the value, and a maximum loan of \$50,000. So? So our higher ratio could very well eliminate the need to get into costly secondary financing.

Our conventional mortgages are available for building a new home, or for an existing property. But if you're in the market for an NHA mortgage or a new home, we're ready for that, too.

One other point: our basic interest rate on conventional mortgage loans will be exactly the same anywhere in Canada. Before you make a move—anywhere—better see your local Bank of Nova Scotia manager.

**The Bank of Nova Scotia**  
Your best interest: we make it our business

## Canada's Building Rate Still In Slump Condition

By KEN SMITH  
Canadian Press Business Editor

Although a lack of up-to-the-moment statistics makes it hard to assess trends, it is obvious that Canada's construction industry still is slumping.

There are indications that better things are in store for the second half of this year, but meanwhile the drop in activity is reported having widening effects on the economy including a slackening in steel output.

Hardest hit in the industry has been housing.

A report last week by the Central Mortgage and Housing Corp. showed that in the first two months of this year, urban housing starts fell 31.5 per cent to 9,153 from 13,358 in the similar 1965 period.

Although apartment units showed 4,563 starts compared with 4,906 in 1965, single detached housing starts fell 48 per cent to 3,695 compared with 7,110.

The corporation also reported across Canada 64,740 dwellings of all types were under construction in February, compared with 97,543 a year earlier. As a result of this decline,

real estate officials are saying, there is little hope for any kind of dramatic improvement this year in the country's general housing shortage.

Although officials are counting on government measures and an easing of mortgage money to produce a sharp increase in the number of housing starts in the last half of this year, they say it will be at least a year before these anticipated starts are ready for occupancy.

This year's total starts are expected to reach 170,000 units at the year end, compared with 135,000 in 1965.

Meanwhile over - all construction activity in the first three months of this year was reported off sharply too.

**DECREASE IN DOLLAR**  
Figures compiled by the Southam Building Guide show the total dollar value of new contracts in the first quarter was \$894,907,000, down 16 per cent from 1965.

One important factor in the decline, however, was the easing off of pressure in Montreal, where building of Expo 67 inflated last year's figures. Contract awards in Montreal

## Canada Lauded

LONDON (CP)—The opening of Expo 67 in Montreal Thursday was made the occasion Wednesday for a warm tribute to Canada in the editorial columns of The Times. "The essential tolerance which is one of the hallmarks of her national life, the reputation for internationalism built up over many years, the record of the good ally—all these Canadian attributes have won her respect around the world," The Times says.

## HINTS TO HOMEOWNERS

### Precautions With Posts Will Prevent Rotting

**QUESTION:** We are planning to have a six-foot slat fence put up. One concern advised us to have the wooden posts set in concrete, to provide ample support. Another claims this would cause the wood to rot. Your vote?

**ANSWER:** If the posts have been thoroughly treated with wood preservative—at least the bottom section up to two feet above ground level—there'll be no worry about decaying. If the post holes are deep enough, the concrete should not be needed for added support.

#### NEW PAINT

**QUESTION:** Before painting our kitchen walls, I would like to know how to make sure grease stains won't work through the paint. There are plenty—especially on the largest wall.

**ANSWER:** Simple, Ma'am. Remove the grease first. Ditto with any wax and dirt. Grease will come off with fine steel wool and turpentine; wax with wax remover if the turpentine doesn't do it. Dirt, with good old soap and water.

#### EPOXY ENAMEL

**QUESTION:** I repaired some cracks in my bathroom with epoxy enamel. Will it be safe to wash this? Or will scrubbing loosen after a while?

**ANSWER:** If you put it on right in the first place—a dry, clean, slightly roughened surface—I doubt if you'll ever be able to scrub it off.

#### RUST REMOVAL

**QUESTION:** During the rainy season, rust ran down from our screens and stained the brick siding below, as well as the mortar. Can this be removed?

**ANSWER:** Some hardware stores carry liquid rust removing preparations. Mix this with enough powdered chalk or whiting to make a stiff paste, and slap it firmly on the stains.

To help with adhesion, brace panels of plywood or sheets of metal or masonry against the paste. When paste dries, brush off and repeat treatment until rust is blotted out.

If you can't find liquid rust remover, make the following solution for mixing with the powdered chalk: Dissolve one part sodium citrate (in drug stores) in six parts of water. Stir this into six parts of commercial glycerin.

#### BULGING CARPET

**QUESTION:** After I shampooed a wall-to-wall carpet, it developed a bulge about half the width of the room. My wife and I sized it, but this only made the bulge worse. Can you suggest how to flatten it?

**ANSWER:** If it's really bad, waste no time in getting a professional cleaner on the job. That's first choice. Next choice: Dampen the area and weight the bulge down with heavy books, or rocks on boards, until dry. Last choice: Repeat the dampening and weighting method, but first uses carpet tacks, spaced two or three inches apart, to pin the bulge down in many places. This may help it dry flatter.

#### WHEEZY ACCORDION

**QUESTION:** Please tell me how to plug up some small holes in the bellows of an almost real-ancient accordion. The notes come out all right. But there's a wheezy sound as well. Can you offer any suggestions for fixing this?

**ANSWER:** First locate every hole. Then mix up enough of the two-part epoxy adhesive to do all the holes. (You can use other clear cements, such as the UHU all-purpose type or the Duco Household Cement.) Wipe the area around each hole clean, using cleaning fluid or benzene. Then dab on the ce-

ment. Don't use the "squeeze box" again for several days, to make sure the adhesives have thoroughly dried and bonded.

#### LEAKY RADIATORS

**QUESTION:** Some of my radiators seem to leak around the valves. As a result, there are small pools under them when the radiators are working. How can I get rid of this condition?

**ANSWER:** This sounds like leaky packing around the valves. It may only be that the big six-sided nut under the valve handle is loose. Try tightening up with a wrench (be careful not to scratch the metal). Very often this tightening works fine for several years. If not, get some graphite-soaked packing cord and put it inside the nut and wrap it on the faucet stem—just as you found it with the faulty packing. Caution: First, remember to turn off the water!

#### SEEKING KIND WORDS

CHELMSFORD, England (CP)—Essex welfare authorities asked other welfare bodies all over Britain for alternative phrases to the official "old people." "There is something unpleasantly patronizing about calling our senior citizens 'old people,'" a spokesman said. "Senior graduate" is a suggestion.

## Surge Of Loan Applications Pour Into Office Of NHA

OTTAWA (CP)—An unprecedented surge of applications occurred in March for loans under the National Housing Act, the Central Mortgage and Housing Corp. reported today.

The new flexible lending rate, a special program for speculative building and easier money in the economy attracted loan requests for 23,458 dwelling units from approved lenders and direct borrowers.

This compared with only 5,253 a year earlier.

Most of the applications by institutional lenders were approved, bringing this category of approvals to 14,652 units for the first three months of the year. It was an increase of 2,274 per cent over the first quarter of 1966 and the total was slightly higher than the total of 14,567 units approved for the whole of 1966.

The government's program of loans to builders for speculative home construction, set ahead to spring from this fall, resulted in processing of 9,611 applications due for approval after April 1.

The effect of March applications did not, of course, show up in housing starts for the month and starts for the first quarter were down 26.8 per cent in urban centres to 14,525 from 19,846 a year earlier.

Starts in single detached dwellings in centres of more than 10,000 population totalled 1,065 in March, compared with 1,343 a year earlier, a drop of 20.4 per cent. In the quarter

they were down to 5,560 from 9,455, a drop of 41.2 per cent. Duplex and semi-detached houses accounted for 256 starts in March, down 10.2 per cent from 285.

Apartment starts were down 14.2 per cent in March to 3,087 from 3,597, and for the quarter down 10 per cent to 7,450 from 8,503.

## WE BELIEVE \$10,000 A YEAR IS A GOOD WAGE

That's what the average West Kootenay Power lineman will be making next year if the Union accepts the same majority Conciliation Board award that the Company has accepted.

The Company is prepared to pay \$4.08 an hour and this means that linemen, with the usual standby, callout and overtime experienced in the past, will earn from \$9,275 to \$10,600 a year.

Helpers, without training, will earn \$6,350. The average for ALL employees will be \$7,630 a year.

What does this mean in extra pay? It means at least \$960 a year in the smallest pay packet and \$1,400 more at the top.

This represents a fair and substantial increase. Anything more will mean that other people working for a living in this area will have to settle for a smaller portion of the total wage pie available to the economy of this region.

Pictured above are Mrs. Lorne Purchase, left, President of the Kelowna Actettes, and Mrs. Leo Berg, First Vice-President.

## Kelowna Actettes Participate In Many Worthwhile Activities

The Kelowna Chapter of the Ladies' Auxiliary to the Associated Canadian Travellers (A.C.T.) was formed in May, 1964, to provide fellowship for traveller's wives and to assist the men's club in any capacity. The club endeavors to hold various money making projects throughout the year in aid of charitable organizations.

The Actettes participated in many worthwhile projects in the past year, one was to assist the A.C.T. in the sale of hydro-plane buttons and another being the White Heather Concert, which is sponsored by the A.C.T. every fall. The Actettes sell tickets, assist in the selling of programs and seating of patrons for this very popular and most entertaining concert. This being Centennial year, the White Heather Concert had a return engagement April 25 at which the Actettes assisted.

At Christmas time, food and toy hampers were presented to needy families and the Actettes assisted the A.C.T. Club in putting on a children's Christmas party, complete with entertainment, toys and goodies for all the families of A.C.T. members.

The new executive for 1967 was installed in January. Mrs. Lorne Purchase as president; Mrs. Leon Berg as 1st Vice-president; Mrs. Jack Hatch as 2nd vice-president; Mrs. Dick Grainger, as secretary-treasurer. Directors appointed were Mrs. Al Martin, Mrs. Ken Sanborn and Mrs. Donn Breslin.

Our second rummage sale, held in March, was again a profitable success as well as the Easter Basket raffle which was drawn at the rummage sale, but probably our biggest endeavor this year was to set up a trust fund. This was done at the South Okanagan Health Unit to be used specifically to help meet the expenses of special treatment required by children who are not covered under other specialized funds. The Actettes presented a cheque for \$200.00 for this fund which is to be used at the discretion of Dr. D. A. Clarke, medical health officer, Miss Kirsten Weber and a member of the Kelowna Actette Club. This fund is called the "Actette Children's Special Health Fund."

## Court Lady Capri C.O.O.F. Is Fraternal Organization

Court Lady Capri, Canadian Order of Foresters is a fraternal and a social organization and was instituted in Kelowna in April 1964 and since then has more than doubled its membership. She works in conjunction with her brother lodge, Court Ogonogo, towards their main project, cancer research, and last year \$1,000.00 was raised and presented to the Kelowna General Hospital for the purpose of helping to furnish a ward in the children's wing.

To achieve these objectives Court Lady Capri have held numerous card parties, home bake sales, rummage sales and a bazaar, and has served refreshments at local functions during the past year.

Members assisted in the local fund raising drive for cancer research and in the recent blood donor drive and every Christmas food hampers are given to the needy families in the area.

The 1967 executive are as follows:

President, Mrs. George Jennens; past president, Mrs. Tom Reeve; vice-president, Mrs. Frank Manna; chaplain, Mrs. George Stone; recording secretary, Mrs. Gary Stone; secretary-treasurer, Mrs. Donna Harney; conductor, Mrs. Alan Dewhurst; warden, Miss Yvonne Sonstelle; inner guard, Mrs. Ignace Szling; outer guard, Mrs. Bill Woods.

## Girl Guiding Grows Steadily

Girl Guiding in Kelowna and the surrounding area is growing steadily and there are now three districts, Kelowna 1, the city and Glenmore with Mrs. E. Denison as commissioner has a total membership of 383; Kelowna 2, comprising Oyama, Winfield, and Rutland, with Mrs. T. G. Marsh as commissioner, membership 168, and Kelowna 3, the south end of the city, Okanagan Mission, and East Kelowna with Mrs. H. W. Chaplin as commissioner, membership 213.

Each District has a district association, mothers who help the commissioners with the administrative work of the district, and there is a camp committee, representing all three districts, who are most active this spring developing the campsite at Okanagan Centre, Camp Arbuckle, so that it will be adequate for the needs of the present large membership of Brownies, Guides and Rangers.

## Father Pandosy Circle Works For Medical Mission Board

This Circle is a limb of the main body of the Catholic Women's League and most of the projects are similar to theirs. The Circle helps in whatever way it can. Emphasis this year for the Father Pandosy Circle has been on work for the medical mission board. This Circle, with a total membership of 18, meets monthly at the homes of members in Okanagan Mission. Mrs. Edmund Guenette and more recently, Mrs. Michael Stapleton, have been in charge of the Mission project. To date, 245 pounds of bandages, compresses, hospital gowns, layettes and soap have been sent to the Mission Centre in San Francisco where they are distributed around the world as required.

Funds raised by the sale of original hasty-notes, designed by J. MacLennan of Okanagan Mission, and by contributions by members, have been distributed to the Immaculate High School Library; the Kelowna Mental Health Auxiliary; Notre Dame University Reference Library in Nelson (the C.W.L. Diocesan Centennial project); and the Vanier Family Institute (C.W.L. National Centennial project). Members also work for Immaculate Conception and Pius X Church Bazaars in the spring and fall.

At the meetings, articles on Ecumenical and social problems are read and discussed.

Chairman for the past year has been Mrs. Eric Sherlock; secretary, Mrs. Armand Poltras; treasurer, Mrs. Gary Holten.

### CITY BLOOMS

MANCHESTER, England (CP)—Planning authorities are considering two plans to convert three miles of disused canal into a "green finger" through the city. One proposes the canal be filled in and landscaped to make a linear park while the other suggests replacement of the locks by waterfalls.

THE DR. W. J. KNOX CHAPTER of the Imperial Order of the Daughters of the Empire participated in two

firsts for the Chapter this year, and were asked by the Centennial Committee to promote the wearing of centen-

nial costumes. In the picture above, from the left, are Mrs. W. T. J. Bulman, vice-regent of the Chapter; the regent,

Miss Rosemary King, and Mrs. Max de Pfyffer, secretary.

## Voice Of Women Have Busy Year

The Voice of Women in Kelowna had a very busy year in 1966, in spite of being a relatively new group, the local membership is 24, and is growing each year.

The aim of all V.O.W. members across Canada is to achieve a world where conflicting issues would be settled at the conference table, and not by devastating wars. All through the ages it has been women and children who have suffered the greatest hardships from wars, and V.O.W. members feel that now, with all our technical knowledge, it is time some real action should be taken to outlaw either declared or undeclared war in any part of the world. To this end V.O.W. branches all across Canada make every effort to help in any way which will encourage better understanding between people.

During 1966 the Kelowna branch made a study of "World Peace Through World Law," and later drafted a resolution to the United Nations which they felt had some value. They prepared a poster for the preschool teachers convention, showing ways in which children have been allowed to think that violence is fun. They sponsored speakers on world affairs; sent several letters to the federal government on current issues, and took a very active part in the sale of UNICEF cards, to aid children in many parts of the world.

The V.O.W. executive for 1967 is: Past president, Mrs. J. W. Knowles; president, Mrs. A. F. G. Drake; secretary Mrs. L. H. Gately, and treasurer, Mrs. F. Epp.

## Dr. Knox Chapter I.O.D.E. Encourages The Wearing Of Centennial Costumes

For the first time in the almost 25 years of the Dr. W. J. Knox Chapter's existence, a Life Membership was conferred on one of the chapter's most valued members. Prior to her departure to make her home in Vancouver, in August, Mrs. A. P. Pettipiece, Charter Regent of the Chapter, was honored by Regent Miss Rosemary King, and members of the order at a supper party, where the Life Membership Certificate and pin were presented. Mrs. Pettipiece is continuing her IODE work as a member of the University Chapter, Vancouver.

Another first was the participation in assisting the committee of the Annual Kelowna Regatta, by sponsoring a coffee party in the home and garden of Mr. and Mrs. Max dePfyffer, for the Lady-of-the-Lake candidates, judges and officials. This venture was considered a social success, and the Chapter hopes to make it an annual event during Regatta festivities.

On the invitation of the Kelowna Centennial Committee, the Chapter has appointed a committee to encourage the wearing of centennial dress in this Centennial Year, particularly during Centennial week June 25-July 1.

The Chapter operates a Superfluity Shop on Lawrence Avenue to finance their projects which include an annual bursary of \$250.00 awarded to a deserving student of School District 23; gifts of books to local school libraries; distribution of 200 IODE calendars to local school rooms; the sending of parcels of clothing, quilts, etc. (valued at \$540.00) to Provincial Headquarters to be distributed to the needy; food parcels sent to an old age pensioner in Wales; eye examinations and glasses provided for children of needy families in School District 23; as well as donations to Korean Projects, Jessie R. Burke Memorial Cancer Fund, Emerson House for elderly ladies, the National Centennial Project, the Vancouver Indian Centre Book Fund and other local projects.

Managed and staffed by members of the Dr. W. J. Knox Chapter, Kelowna, and the Mt. Boucherie Chapter, Westbank, the profits of the Superfluity shop enables the Chapter to make generous contributions and gifts to many worthwhile

local, provincial and national activities and institutions. The Dr. W. J. Knox Chapter takes this opportunity to thank all those who have donated used goods to be sold in the shop, and solicits your support during the next year.

For the third year in succession, the distribution of the TB Christmas seals and the collection of the donations was managed by the Chapter. Under the able chairmanship of Mrs. P. S. Russell, the Dr. W. J. Knox members' committee realized a total of more than \$5,400.00.

New Canadians continue to be welcomed by the Citizenship convener at each citizenship ceremony in the Court House. Greeting cards are presented and all new Canadians are entertained at tea, by the convener and her assistants.

Each month, refreshments are prepared and served by the Chapter's representative to the White Cane Club, assisted by several Chapter members.

Members have attended meetings of the committee on Indian Affairs, have worked on the committee of the David Lloyd-Jones home, and have shown much interest in many local organizations.

It may be interesting to note, that up until the time the Dr. W. J. Knox Chapter was able to afford to give its own bursary to a deserving student of School District 23, a donation of \$100.00 was made, annually, to the Kelowna Student's Assistance Fund. To date, this has been the largest annual contribution made by a local organization. The Dr. W. J. Knox Chapter continues to hold a membership in this group, and one of the Chapter's members is on the governing board.

Officers and conveners for 1967-68 are:

Regent, Miss Rosemary King; 1st vice-regent, Mrs. Walter Hall; 2nd vice-regent, Mrs. W. T. L. Bulman; secretary, Mrs. Lawrence Preston; treasurer, Mrs. M. J. dePfyffer; education secretary, Mrs. George Friend; Echoes secretary, Mrs. Joseph Marty; standard bearer, Mrs. Cecil Mottershead; services at home and abroad, Mrs.

Howard Williams; immigration, Mrs. Nancy Mackenzie; White Cane club, Mrs. George Friend; Superfluity shop, conveners, Mrs. Archie Laird and Mrs.

George Friend; finances, Mrs. P. G. Russell; public relations, Mrs. Douglas Kerr; hospitality, Mrs. W. T. L. Bulman; world affairs, Mrs. F. L. Fitzpatrick.

### SMALL BEGINNINGS

More than 50 years after its foundation, the city of Quebec had 70 houses and a population of 550.

THE 1966-67 EXECUTIVE of the Women's Auxiliary to C.A.R.S. are pictured above. From left are Mrs. Ernest

Winter, president; Mrs. David Morrison, past president; Mrs. R. F. Cruickshank, treasurer, and Mrs. Lloyd

Dow, secretary. Not present in the picture is the vice-president Mrs. Sharburn Chaplin.

## Auxiliary To C.A.R.S. Deals With The Needs of Patients

While C.A.R.S. board of directors deals with administration of the Kelowna branch, the Auxiliary deals specifically with patient needs, as recommended by the Branch physiotherapist, or occupational therapist.

The C.A.R.S. Clinic is located in the Kelowna General Hospital. There, patients with requisitions from their doctors, receive treatments daily. When necessary, transportation is provided to the Clinic, and to the weekly Arts and Crafts classes.

Patients are visited in homes and hospitals, and assistance given where requested by the physiotherapist.

Items are purchased for the clinic and loan cupboard, as required, as well as self-help devices and other comforts.

Garden and Christmas parties are held each year.

The Auxiliary's main source of funds is the Bluebird Doll and wardrobe raffle prior to Christmas each year. This well-known doll is always beautifully dressed by Mrs. L. Jennens.

Meetings are held on the first Monday afternoon of each month. More members are needed. Duties and obligations are not demanding, especially when there is an adequate membership.

Needed: People who would be willing to take patients for an occasional drive, particularly in fine weather, and to take them shopping once in awhile. And, new members.

### Top Of Paper Suit Floats Off Swimmer

BALTIMORE, Md. (AP)—A shapely blonde plunged into a heated swimming pool to demonstrate a new paper bikini for the press and the worst happened—or the best, according to one's point of view.

The top part of the suit—guaranteed not to shrink, burn or disintegrate—floated away Thursday from 23-year-old Noel Steever.

While she sought to fix it, a public relations man explained to "aping reporters": "It's not really a piece of athletic wear. It's not a thing to go swimming in, really."

Most of the reporters hardly heard him. They were watching Miss Body Chemistry of 1967.

Miss Steever later said the swimsuit "could use some design changes."

## Enjoyment Of Liberal Arts Project Of Beta Sigma Phi

Beta Sigma Phi, an international organization founded in 1931 was created for young women in search of cultural and social activity. Through its many resources, the sorority offers members an intimate touch with many lives and many minds. It is an enriching experience in the appreciation and enjoyment of the liberal arts.

The activities of the Kelowna chapter this year began with the Regatta, during which time members assisted in ushering at the night shows and hosted sixty guests at a coffee party for past and present Regatta Royalty.

The sorority's service project, ushering at the Community Theatre, kept the group busy this year, their services being required for the One Act Play finals, Speaking of Murder, The Snow Dragon, Les Feux Follets, and Oliver. The chapter will also usher for the Folk Arts Festival in May.

At each meeting of the sorority, a member presents a program to do with some phase of the liberal arts. This year we have been treated to some very fine presentations. Among these was a visit to Hambleton's Art Gallery where Jack Hambleton was the guest speaker. A member of the Regional College Council attended a meeting as did Udis Araj's who spoke on the Kelowna Arts Council. Robert Dow Reid discussed sculpture at another meeting and Peter Fulker was the guest speaker for the program on architecture. Another meeting found the chapter in Pope's studio learning about photography and the program on speech was covered by the groups' attendance at the Toast-

mistress' Speech Contest finals. Other programs on the subjects of music, drama, art, clay modelling, dance, prose, poetry, oratory and home planning were handled by the members themselves.

Beta Sigma Phis' had a busy year socially, too. A "Shipwreck Party", a model meeting, and a tea were held in the Fall to acquaint new members with the sorority, and a December Progressive Dinner was a great success. In January a mixed bowling party was very well attended and on April 29th, Beta Sigma Phis from Vernon, Kelowna, Penticton, and the Kootenays will meet in Penticton to celebrate Founder's Day.

Perhaps the most exciting event for Alpha Epsilon was the formation of a Beta Sigma Phi group in Vernon. This was preceded by many organizational meetings, a tea, a model meeting, and finally the Pledge Ritual.

Next year Alpha Epsilon will be headed by Mrs. K. H. Kellogg who was elected president; Mrs. G. G. Barnbrook, vice-president; Mrs. A. B. Postle, secretary, and Mrs. R. D. Cannon, treasurer.

### SHE WANTS RECORDS

SEATTLE (AP)—Andrea Gail Lematta, 17, with one record set, has her eyes on another. "I would like to fly jetliners," she says. Andrea already has passed her helicopter private pilot's licence test. A Federal Aviation Agency official says she's the youngest girl helicopter pilot in the U.S.

# First Woman Doctor Forced To Study In United States

By JEAN SHARP  
CP Women's Editor

TORONTO (CP) — Emily Stowe must have been one of the stubbornest women ever produced by Canada.

Her crowning achievement was to become the nation's first practising woman doctor.

That was in 1867 but it's an indication of Canada's attitude toward women in the year of Confederation that she had to study for her MD in another country.

Emily Howard Jennings was born in 1831, one of six daughters of Solomon and Hannah Jennings. They were Quakers who had come from New York state to help found Norwich, Ont.

Emily's Quaker background taught her to consider men and women as equals and prepared her well for the difficult role of pioneer in woman's early struggle for emancipation.

Educated at home by her mother, Emily began teaching school at 15. In an era when a rudimentary grasp of the three Rs was often considered enough equipment for teaching, Emily Jennings went on studying.

## BECAME PRINCIPAL

It took her seven years to save enough money to attend normal school in Toronto. She graduated in 1854 with one of the earliest first-class teacher's certificates given a woman.

Then she went home to rack up the first of her firsts—a job at Brantford Grammar School as Canada's first woman principal.

In 1856 she married John Stowe, a carriage-maker and

Methodist lay preacher. For seven years she lived peacefully in Mount Pleasant, Ont., as a housewife and, in time, mother of Ann Augusta, John Howard and Frank Jennings Stowe.

Then John Stowe was stricken with tuberculosis and had to go to a sanatorium. Mrs. Stowe went back to teaching to support the family and then, with her husband's encouragement, decided to become a doctor.

She applied for entrance to the University of Toronto and was indignantly refused by the senate.

"The doors of the university are not open to women and we trust they never will be," a member of the senate is said to have stated.

## STUDIED IN NEW YORK

Mrs. Stowe left the children in the care of her sister, Cornelia, and went to New York to attend the New York Medical College and Hospital for Women, Homeopathic. It was run by Dr. Clemence S. Lozier, an associate of suffragette Susan B. Anthony.

In 1867 ads began appearing in Toronto papers that Mrs. Dr. Stowe would see patients 9 a.m. to 3 p.m. at 73 Shuter Street. Canada's first woman doctor was in business, having moved the family to Toronto.

Opposition from the male establishment continued. Not until 1880 was Dr. Stowe formally licensed as a member of the College of Physicians and Surgeons.

While she built her practice, she also became a popular lecturer, talking about women and their place in the world.

When her husband's health

improved, she saw him through dental school.

In 1877 she organized the Toronto Women's Literary and Science Club. It became a suffrage group that helped win the municipal vote for widows and spinsters. In the 1890s, the Dominion Women's Enfranchisement League was formed. Dr. Stowe was an organizer and its president from 1898 to her death.

## DAUGHTER MADE IT

She did not live to see Canadian women get the vote in 1918, but she did see improvements in their world that she had helped win.

And Dr. Stowe must have derived vast satisfaction from seeing her daughter do things she had made possible. Dr. Augusta Stowe Gullen became the first woman to graduate from a Canadian medical school in 1883. She lectured at the Ontario Women's Medical College founded that year. In 1892 she was elected to the Toronto school board—another first.

After her mother's death, Dr. Gullen sat in the senate of the University of Toronto, the school that had refused her mother admittance.

She worked in the suffrage movement and succeeded Dr. Stowe as president of the franchise league.

John Stowe died in 1891. In 1893, Dr. Stowe gave up her medical practice and spent much of her time in retirement at a cottage in the Muskoka area. She died in 1903 at the age of 72.

## Education And Arts Interest University Women's Club

The University Women's Club of Kelowna welcomes as members all women graduates. At present the club has about forty-five members drawn from many different universities in Canada and overseas and from many different fields of study, which provides a stimulating variety of background and opinion.

Through affiliation with the Canadian Federation of University Women, the local club is able to make contributions to national and international affairs. This year for example the Federation has been instrumental in setting up the Royal Commission on the Status of Women. By contributions to Federation scholarship and relief funds the club is able to further education and help graduates at home and overseas.

Closer to home the University Women's Club hopes to benefit the local community particularly in the fields of education and the arts. During the past year there have been many contributions to community life. In the Community Theatre the club has sponsored performances of The Knack, Hansel and Gretel and The Best of Barkerville. For school children the club provided a series of classes in Creative Drama, and two performances by Holiday Theatre. Much work was also done in the organization of Career Day in the secondary schools and during the campaign for the establishment of the Regional College.

The publication and distribution of the Community Services Directory was completed arousing great interest as far afield as Ottawa. This led to the setting up of the Kelowna Volunteer Bureau. Another long cherished project was the reestablishment of the Community Arts Council. Club members also serve on the Centennial Celebrations Committee and the Museum Committee.

Through these services to the community the University Women's Club hopes to provide its members with a chance to be of use in ways they could not achieve alone. Through the monthly meetings members are provided with a variety of information and entertainment.

and may listen to experts or take part themselves.

The executive for 1967 is as follows: President, Mrs. E. Bird-sall; vice-president and program co-ordinator, Mrs. R. D. Knox; federation representative, Mrs. S. Arneson; secretary, Mrs. D. L. Oke; treasurer, Mrs. L. D. Lowes; publicity, Mrs. R. M. Tait; membership, Mrs. E. N. Pedersen.

## Catering Is Project Of St. Theresa CWL

St. Theresa's Parish Council of the Catholic Women's League of Rutland has approximately forty-three members. One of the main projects for the year is catering for weddings and banquets. Once a year a membership tea is held. This year it will be held on April 30. The CWL operates a religious booth which is open every Sunday after mass.

During the past year donations are sent to the National Centennial project, which is the Vanier Institute; the Diocesan project, which is money that will be used for the reference books for Notre Dame University; and the Rutland Centennial project, which will be a new community hall. For our own centennial project, St. Theresa's council will redecorate and refurbish some of the rectory. Some of the ladies helped to paint the new meeting room and the CWL are also paying for a heater and fan for this room.

The council also sends cards to people in the hospital and visits shut-ins. Donations are sent to the March of Dimes, cancer funds, and many others. Masses are said for the sick and deceased. Our CWL ladies also help with the parish bazaar.

A very impressive ceremony is held each year for installation of the new executive. Our new executive for 1967 is as follows:

President, Mrs. Adam Rieger; 1st vice-president, Mrs. Al Schermann; 2nd vice-president, Mrs. Walter Simla; 3rd vice-president, Mrs. David Van Der Gulik; secretary, Mrs. Leo Zygonarich; treasurer, Miss Maria Gubben.

Oh!  
to be grown up

... then I could go to Ye Olde Pizza Joint and try some of that mouth watering pizza, everyone's raving about. I understand there's 20 suggested Pizza's on the menu. ## Visual Research Interests Kelowna Rebekah Lodge

The Kelowna Rebekah Lodge No. 36 was instituted April 7, 1914 and has been an active lodge all through these years. Charter members, Miss Lily Patterson, Mrs. W. Harvey and Mrs. E. Robertson still reside in Kelowna.

The present membership of 163 includes twenty-two Odd Fellows. In the IOOF, men, in good standing in their own lodge, may become members of the Rebekah Lodge, thus allowing husbands and wives to visit anywhere in the world that there may be such lodges. This promotes better understanding and Oddfellowship and many good times are enjoyed at interfraternal functions.

One of the main projects of the Order is the IOOF Eye Bank and Visual Research

Foundation. This was started in 1956 at the John Hopkin's Hospital in Baltimore and each year all lodges in North America contribute \$1.00 or more per member to the foundation. Soon the required amount of \$625,000.00 will be collected and the foundation will be self-supporting. The IOOF work in conjunction with the CNIB and pledges to will one's eyes may be obtained through this Order. "Let your eyes live after you."

The annual IOOF United Nations Pilgrimage for Youth Contest has just been completed. The winner for 1967, Miss Vicki Gibb, will travel, in July, to New York with other students from British Columbia, Alberta, Alaska and Washington. They will be entertained all across Canada and the United States by Odd Fellows and Rebekahs.

These students will visit the United Nations for several days and will be given conducted tours, lectures and opportunities to meet many dignitaries of different countries and learn the real meaning of the United Nations.

To raise money for these and other projects and charities the Rebekahs operate a refreshment booth in Ogopogo Park during the boat races and the regatta, hold teas, bake sales and bazaars.

The 1967 executive of Kelowna Rebekah Lodge No. 36 is Noble Grand, Mrs. R. Ruffli; Vice Grand, Mrs. R. Hubbard; Recording Secretary, Mrs. G. Mugford; Financial Secretary, Mrs. E. Hamilton; Treasurer, Mrs. J. Jankulak; and District Deputy President, Mrs. H. Dewhurst.

## United Church Women Strive For Variety Of Activities

The purpose of United Church Women is to unite all women of the congregation for the total mission of the church.

To reach this goal the 12 units of the church worship and work together in a wide variety of activities. They strive to remember the elderly of the congregation and to this end have them as special guests at teas and socials. They are the ones for whom the Blossom Drive was instituted.

On our annual list of activities we have the Spring Luncheon, Fall Bazaar and Harvest Tea. This year a committee is preparing for a Centennial Social for the entire congregation.

The UCW members make regular visits to the Hospital and Nursing Homes. At Christmas, boxes of cookies are delivered to the sick and shut-ins of the congregation. We cater at various church socials and

try to aid the home church and Okanagan Presbytery in every way possible.

Dr. and Mrs. Gordon Robertson, medical missionaries in Africa are remembered with letters and financial assistance for their work in the mission field, and many layettes and bundles of good used clothing are sent to Korea and Indian Missions.

Five general meetings are held during the year and each of the units meet monthly. These meetings are a time of worship, study and fellowship. In all, there are 20 women on the executive headed by Mrs. L. S. Green, president; Mrs. W. R. Brown, vice-president; Mrs. A. Warren, secretary and Mrs. W. H. Fleming as treasurer.

**WRITING ALL LIFE**  
John Philip Sousa wrote 140 marches and 10 operas.

## Unborn Baby Is A Person Says Court

BOSTON (AP) — The Massachusetts Supreme Court says an unborn baby is "a person" in the eyes of the law and thus has a right to recover damages for wrongful injury.

Chief Justice Raymond Wilkins wrote the decision Thursday, reversing a decision by Oliver Wendell Holmes in 1884. Holmes, then a justice of the State Supreme Court and later an associate justice of the U.S. Supreme Court, ruled that a fetus was "not a person" in the eyes of the law.

The present court said that if a fetus is capable of independent life, then it is a person.

The unanimous ruling was on a suit by Zaven Torigian of Wauwatosa for damages on behalf of his child, born prematurely in 1964 after Mrs. Torigian was injured in an automobile accident. It allowed Torigian to take further court action against the owner of a truck which collided with Mrs. Torigian's car.

The baby weighed two pounds at birth and lived 2½ hours.

## WA To The Hospital Marks 60th Birthday

This year 1967, marks the 60th Anniversary of this auxiliary. It was started in October 1907 by a small group of Kelowna ladies, prior to the opening of the hospital in March 1908, so perhaps we can claim to be the oldest women's organizations in Kelowna. First known as the Ladies' Aid, it was in 1930 that the name was changed to Women's Auxiliary to Kelowna Hospital.

The auxiliary is still an active group with 30 members, three associate members and three Life Members. In the year 1966 we purchased a medicine refrigerator for North Surgical, a chrome crib for the pediatric ward and added another \$900.00 to our savings account, which now amounts to \$3,228.00. This money we hope to use before too long in our new hospital.

The auxiliary will again be serving tea at the Hospital Fair. We shall look forward to seeing you there, please make it a date with us.

President of the auxiliary is Mrs. Thomas P. Hulme; vice-president, Mrs. Muriel Foulkes; past president, Mrs. J. C. Taylor; secretary, Mrs. A. C. McFetridge; treasurer, Mrs. L. J. Brazziel.

### FAIR CROWD

MONTREAL (CP) — Officials of Expo 67 say a total of 72,007 persons were on the world's fair site Thursday, eve of the big fair's opening to the general public. They said the figure included employees concessionaires.

## Auxiliary To Kinsmen Club Is Kinetite Club Of Kelowna

The Kinetite Club of Kelowna acts mainly as an auxiliary to the Kinsmen Club and has assisted them in several ways this past year. In August Kinetites helped with the operation of the Regatta midway, and in addition operate a food tent which serves meals to more than one hundred Kinsmen and their wives during the four days of Regatta. We also sewed 50 red vests for members to wear while working on the midway.

In December Kinetites catered to the Kinsmen Stag which involved the preparation of food for approximately 300 men; we helped pack and deliver 12 Christmas hampers, and we assisted in putting on a Christmas party for 150 under-privileged children.

In February we served as head mothers and organized all the local mothers who canvassed the city for the Kinsmen's Mothers' March. On Founder's Night we presented our Kinsmen with a hotel dinner shield, and in March we catered to one of their dinner meetings.

In addition to working with our Kinsmen, Kinetites also serve the community in many ways. Last summer we assisted the Kelowna Aquatic and Regatta Auxiliary at a coffee party for

visiting royalty, addressing invitations, lending pillows and blankets, and we also acted as supervisors at a beach party and barbecue supper for competitors. We completed our pledge to furnish a semi-private room in the new hospital in memory of past Kinetite Sheila Clerke.

This year we have assisted the Rehabilitation Foundation with their social evenings for the handicapped. In December we gave a Christmas party for the children at Sunnyvale School. We cleaned stuffed toys collected by the Fire Department and also collected broken toys for the firemen to repair. We have supplied six complete baby layettes to the Kelowna General Hospital, and we also made a donation to the Centennial Museum.

Kinetites two major service projects are—operating the depot for Kelowna and district for the Unitarian Service committee, by collecting and sorting clothing for shipment to the U.S.C. headquarters in Ottawa, and the sponsorship of a six year old Korean girl through the Save The Children Fund.

Our service work requires funds and we have obtained them by — a fall rummage

sale, making and selling Kandy Kanes, our annual Yuletide sale, dance club, an Easter outfit contest, and we are now planning a better used clothing sale to be held in April.

Through the many activities Kinetites enjoy a great amount of fellowship. We have a dinner meeting once a month, with a planned program, and liaison is maintained with other Kinetite Clubs in the valley through inter-club visits. In April the Kinetite Clubs of the Okanagan Mainline Zone hold an inter-club zone meeting. Our club takes an active part in Kinetite Club competitions, and trophies are awarded at the District Kinsmen Convention held in May. Our membership now stands at 46. Members of the 1966-1967 Kinetite Club executive are:

Past president, Mrs. R. Busch; president, Mrs. G. Moen; 1st vice-president, Mrs. E. Collinson; 2nd vice-president, Mrs. D. Haworth; secretary, Mrs. D. Crowther; treasurer, Mrs. P. Tinker; registrar, Mrs. W. Gee; directors, Mrs. F. Niro and Mrs. E. Krahn; bulletin editor, Mrs. N. Peters.

## Demonstrations Of Cooking Will Interest All Gourmets

The Art of Cooking demonstration presentation being brought to the Okanagan by the Kelowna Art Exhibit Society should be of interest to all members of all the women's clubs and also to those men who are interested in gourmet cooking. You are invited to a "first event" for the Okanagan on May 3 and 4, 1967, in the Aquatic Hall, City Park, Kelowna, Miss Muriel Downes, director of the London Cordon Bleu School of Cookery will give three demonstrations.

Miss Downes will appear in only three cities on her trip to Canada this spring. These are Montreal, Vancouver and Kelowna! Her appearance in Kelowna is through the courtesy of the Royal Commonwealth Society, her sponsor in Montreal and Vancouver.

The London Cordon Bleu School of Cookery is famous for methods based on the world renowned school of French cooking. Miss Downes will demonstrate complete menus and recipes, using materials

and methods for the Canadian cook-host and hostess. She is noted as a demonstrator who is both skilled and practical.

### PROFESSIONAL SECRETS MADE EASY

The audience at each demonstration will be limited in number. One evening demonstration will be presented on May 3 for the convenience of men and women unable to come during the day. Each demonstration will be two hours in length, and questions from the audience will be answered. Miss Downes' six demonstrations for mid-April in Vancouver sold out

completely months in advance. Be sure to see her in Kelowna.

Mrs. Walter O'Donnell is chairman and Mrs. T. C. McLaughlin honorary chairman of the committee in charge. On Wednesday, May 3, at 2 p.m. there will be an afternoon demonstration featuring a buffet luncheon and in the evening at 8 p.m. a complete menu and recipes for a dinner party will be featured. On Thursday afternoon a complete menu and recipes for an informal lunch or supper will be given. All dishes will be prepared before your eyes during the demonstrations.

### SHARE WITH COEDS

PRINCETON, N.J. (AP) — Most male students at Princeton University, expressing views in a poll, would like to share their classrooms with coeds. A survey of 600 students showed that 49 per cent favored girls at Princeton and 44 per cent voted against them. Seven per cent had no opinion.

### PAINTING RECEIVED

BOSTON (AP) The Boston Museum of Fine Arts has received The Street Singer, by Edward Manet. The painting, valued at \$800,000, was given under terms of the will of Mrs. J. Montgomery Sears of Boston who died in 1935.

## It's True . . .

# THEY'RE OUTSELLING US IN LONDON

We've got to concede. They've got us beat on Westminster Bridge, in Parliament Square, in Picadilly and all along the Thames. And even when the competition is a family affair, it's rough. Occasionally our man in London catches somebody sneaking a peek at his Kelowna Daily Courier, but it's a battle. The English are polite, but they fight hard. This has put a heavy burden on our reporting and circulation staffs, which must work doubly hard if we are to win a gentleman subscriber here and there in London. The ones with the bowlers are the hardest to sell. Old school ties, you know.

But if you think we have it rough in London, you can imagine how hard it is in Kelowna for anybody else. Here, where we're operating on home ground, where we know you and you know us, things are different. No doubt about it . . . we're easily thousands and thousands of copies ahead of any London papers sold in Kelowna.

Yes, we're pleased to admit we're ahead here in Kelowna where things count the most with you. But we are thankful for the competition, as it were. Helps keep us on our toes in serving you.

## Taking Children To Expo 67 No Problem Says Carol Lane

By FLORA EVANS

Visiting Kelowna this week has been Carol Lane of Toronto, Shell Canada Ltd's Women's travel director. Miss Lane spends ten months of each year travelling across Canada lecturing at Women's Clubs. Her topic is Travel by Car, and she offers hints on packing, suggests suitable wardrobes to take on trips and advises travelers on the easiest ways of travelling with children.

This year the main topics of interest to women's organizations, she said have been Centennial Events, the Pan American Games and above all Expo 67. Women, she told me, want to know what they should do with young children if they manage to take them to Expo.

There will be baby sitting facilities for children from 3-6 in the Petite Place Garden, Isle Ste Helene, she said, where they may play under supervision either indoors or out and will also be served meals. There will be a service area in the Swimming Pool Building, with a nurse in attendance, where mothers may change, feed and make their small children generally comfortable, and there will be display boards throughout the grounds giving the locations where lost children may be found. Carts, such

as those used at Disneyland, will be available for pulling the children around, and last but not least will be the Children's World.

Located in the La Ronde area will be a dream world for small people between the ages of four to ten, which will contain a restaurant, completely built on a child's scale; all type of rides and fun will be available, and there will be a Creative Centre where tales of Mother Goose will come to life, as well as a small animal farm where children may ride on elephants, giraffes and ponies. In this little world parents will be tabu.

Miss Lane, who I gather is available as a speaker at any Women's Club, can be reached through David Webster, Shell public relations manager from Vancouver with whom she is at present touring B.C., and she is truly a fountain of information on the subject of travelling with or without children.

### TINS BECOME ART

ROSSLAND, B.C. (CP)—Mrs. Fred Simister of nearby Black Bear is an artist with tinsnips, pliers, hammer and spray paint. Her hobby is making useful objects and ornaments from discarded tins.

## ABOUT TO SET OFF ON TOUR OF OKANAGAN

Boarding the beautiful Shell plane on Thursday to take off for other points in the Okanagan before returning to the Coast are Carol Lane, women's travel director, David

Webster, in charge of Shell public relations, from Vancouver and their pilot A. M. Parry. Miss Lane has been visiting Kelowna to make arrangements for future talks to women's clubs.

**A DEDICATED AUXILIARY** whose primary concern is the comfort of patients in the Kelowna Hospital is the Junior Hospital Auxiliary. In the picture above seated in front are the president, Mrs. Edward

F. Lawrence, right, and Mrs. J. R. M. Traves, secretary. Standing are Mrs. F. J. Simard, first vice-president, right, and Mrs. R. B. McKenzie, treasurer. Members of the 66-67 executive not shown in

the picture include Mrs. J. R. Warner, second vice-president; Mrs. W. S. Cave, social director; Mrs. C. D. Newby, buyer; Mrs. N. R. Kendal, assistant buyer, and Mrs. K. C. Tatlow, Volunteer Service representative.

## Junior Hospital Auxiliary Aim Is Service To Hospital

The Kelowna Junior Hospital Auxiliary was started in 1929. Since that time we have made good progress in fulfilling our objectives and being of service to the hospital.

At present we have 78 active members, 25 associate members, 52 adult volunteers, and 12 candy strippers (teen age girls, who belong to the future nurses' club.)

Our primary concern is to provide for patient comfort. Volunteer Services, under the

direction of Mrs. Len Leathley, contributed a total of 2,065 hours in the hospital during 1966. This included work in the admitting office, medical library, mail delivery, etc.

During the past few years we have had good success in our various projects, and this has enabled us to purchase several pieces of equipment for the hospital. Purchased to date this year are the following: A thoracic drainage pump; one arm drive wheel chair; emergency

suction machine; vapourizer for pediatrics; seven (7) portable television sets.

A specially designed resuscitation cart — cardiac control console — to be used in the new intensive care department is on order, at a cost to us of approximately \$2,000. An additional \$10,500 in bonds has been set aside for use in the new hospital addition.

Our main annual projects include a Charity Ball, held in February; the Blossom Time Fair, held in May; a Fashion Show, held in October and the sale of Auxiliary memo calendars.

This year our Fair, which will have a Centennial theme, is being convened by Mrs. D. F. Morrow. It will be held on May 10 at Strathcona Park, due to construction underway on hospital grounds. We will have our usual interesting booths; home baking, delicatessen, handicrafts, etc. Afternoon tea will be served by the Women's Auxiliary to the Hospital.

We would like, at this time, to thank Kelowna merchants, news media, and the individuals who have given us their generous co-operation through the years, and all members of the community, who have patronized our various functions.

### Okanagan Mission Guides And Brownies

The group raises money for Guides and Brownies in the Okanagan Mission area, giving the money for the annual assessment with the new building program at Camp Arbuckle. They sponsored and arranged for the annual Mother and Daughter banquet, had a raffle for a turkey. They sponsor the sale of Girl Guide and Brownie cookies, and plan a rummage sale in June.

Officers are: president, Mrs. Howard Morgan; vice-president, Mrs. Gifford Thomson; secretary, Mrs. Eric Dunlop; treasurer, Mrs. John Surtees. Committee heads are: transportation, Mrs. Louis Dedinsky;

cookies, Mrs. Eden Raikes; publicity, Mrs. George Fry; badge secretary, Mrs. Hugo Cookson; camp, Mrs. John Molsey; telephone, Mrs. Raymond Bostock; uniforms, Mrs. Geoffrey Sarsons.

Guide Leaders are Captain, Mrs. George Mills; Lieutenants, Mrs. Mike Stapleton and Mrs. H. F. Noakes. First Okanagan Mission Brownie Pack, Brown Owl, Mrs. Hal Odum; Tawny Owl, Mrs. Jack Hemmley; Grey Owl, Mrs. P. S. Mallam. Second Okanagan Mission Brownie Pack, Brown Owl, Mrs. H. C. Dunlop; Tawny Owl, Mrs. Kenneth Thomson; Grey Owl, Mrs. Brian Tester.

## Termination Of Pregnancy Permitted To Save Mother

TORONTO (CP) — A woman who was given a therapeutic abortion at Women's College Hospital says her request for an operation earlier had been rejected by eight Toronto Gynecologists.

Laila Hadi, one of 100 women to receive abortions in Toronto hospitals last year, said she suffered German measles early in her pregnancy.

Her husband, Mohammed,

said: "I had called eight gynecologists and all of them said, 'I'm sorry, the laws in this province are such that we can't really help you.'"

After the Hadis found a doctor who agreed to do the abortion, laboratory tests showed she had been severely infected with German measles and her case was considered and approved by a committee of doctors at Women's College Hospital.

# Cure Of Cancer Interests Order Of The Eastern Star

In Kelowna there is a group of ladies whose main project is the cure of cancer by research, and alleviating the discomfort of its sufferers. They are the members of Kelowna Chapter No. 62, Order of the Eastern Star.

All chapters in British Columbia take this as their main work. Since 1946 six million dressings have been made in the province, with the cumulative hours devoted to this labor of love being about 850,000. Records show approximately \$180,000 spent on

purchase of materials. On the research side of the cancer project \$155,000 has been spent over the years. They have helped support all the major projects of the B.C. Cancer Institute from this money.

The Kelowna chapter has three cancer dressing groups meeting at the South Okanagan Health Unit. In addition, an evening group works once a month at members' homes. They devote an average of 120 hours per month and make 5,000

dressings a year. These dressings are supplied free to all cancer patients in the community requiring them. Surplus supplies go to the Coast or to fill in shortages at the other Valley centres.

Convener of the cancer dressing groups is Mrs. R. J. Buchanan with Mrs. James J. Munday as recording secretary. Anyone in need of dressings can contact these two persons. Co-conveners are Mrs. Frederick T. Bunce, Mrs. F. N. Gisborne, Mrs. L. Eric Loken, Mrs. Albert Grassick and Mrs. Thomas Handlin for Kelowna. A group meets in Westbank under Mrs. W. Truitt.

In 1954 the B.C. Chapters started collecting cancelled stamps. The first year's effort netted \$17, but a very active member and her committee have made the amount received for stamps in Kelowna alone, in the 1966-67 year \$240.75. The proceeds from the sale of these stamps are used for cancer research. If you have old albums or collection to discard please contact Box 335, Kelowna. You may also help by saving all your stamps and contacting any member.

The Chapter contributes to the Eastern Star Training Awards, one of which provides scholarships to Theological students. Edward John Wigglesworth of Kelowna was a recent recipient.

Meetings are held in St. George's Hall, Bernard Ave. on the first and third Wednesdays of the month.

The Worthy Matron is Mrs. Albert Grassick and the Worthy Patron, Horace Hewlett, who were recently installed.

Members look forward to another dedicated and enjoyable year.

**SEE NANCY GO**  
NEWBERG, Ore. (AP)—Sixteen-months-old Nancy Pederson knocked the emergency brake loose on her family's car while it was parked on their inclined driveway but she turned the steering wheel so it rolled into the front lawn instead of a busy street. "See the car go" said Nancy.

**ONLY ONE CHANCE**  
The century plant blooms only once in its lifetime, not once every 100 years as its name suggests.

## Kelowna Co-operative Pre-School Has 60 Families Co-operating Now

The Kelowna Co-operative Pre-School is completing its first year with three age groups, 3, 4 and 5 year olds, attending separate sessions. This has increased the number of participating families to a minimum of 60, as we are fortunate in having a number of enthusiastic associate members. Throughout the year, attendance has been at full capacity. A waiting list has been most helpful in replacing vacancies as they occur.

The Parent Education Committee chose excellent speakers for the monthly meetings, exceptions being December and June when the meetings are purely social. Speakers from the North Okanagan Health Unit have included Miss Jordan, dental hygienist; Mrs. Olson, public health nurse, and Miss Deacon, speech therapist. From the school district, we learned a great deal about the Kodaly music system as taught in the primary grades, from Gar McKinley, supervisor of music, and another month a primary teacher, Mrs. Reed, showed and discussed the film "Wally Goes to School." In November, Dr. C. Henderson, a pediatrician answered the many and varied questions asked by the group. As May heralds the approach of the swimming season instruction will be given on mouth-to-mouth resuscitation.

Money raising projects during the year have included two suppers and a rummage sale. As our fees just cover expenses, the proceeds from these extra projects are put aside for the sole purpose of buying suitable and challenging equipment.

At a meeting in early April, a new executive was chosen for

the coming year. These include: President, Mrs. Wm. Knutson; vice-president, Mrs. J. Teichroeb; secretary, Mrs. W. Akerlund; treasurer, Mrs. L. Fiesell; enrolment, Mrs. P. Iglesden; equipment, Mrs. H. Luttmerding; parent education, Mrs. T. Pickering.

Doubtless a great deal of credit for the success of this group is due to the two fine teachers the children have had. With two mothers in attendance at each session, the teachers are free to give their full attention to the children and we all take pleasure in the way the children have responded. Outings play an important role in an enriched kindergarten program and some of these which the children have found particularly interesting have been: a trip to a fish ladder to watch kokanee salmon swim upstream to spawn; a trip to an apple orchard during harvest; a stop at a large pumpkin patch where just the right one was chosen for the school's jack-o-lantern; a bus ride; a visit to the library when the five year olds were allowed to join; a trip to the firehall near Christmas when toys were donated for needy children; short walks were taken to visit various shops about the area such as a shoe repair shop, a music store, a lumber yard and a dry goods store, a homing pigeon loft was seen; a small farm was explored to see triplet kids, chickens and rabbits; and in the school the children had baby chicks, guinea pigs and an aquarium.

In summary, the year has been a rich and rewarding one not only for the pupils, but their parents as well.

## Christian Service Is Objective Of St. Andrew's Church Guilds

Officers of the Afternoon Guild are Hon. President, Mrs. H. C. S. Collett; president, Miss Joan Willett; vice-president, Mrs. Larry Rands; treasurer, Mrs. C. H. Walford; secretary, Mrs. H. R. Hobson. This Guild meets the second Thursday of each month at the Parish Hall. During the year they have two rummage sales, a plant sale, a June tea and bake sale, and a white elephant tea and bake sale. They assist with the annual parish bazaar. Money raised goes to the Church and Parish Hall, and to two missionary projects.

The Evening Guild of St. Andrew's Church meets the third Tuesday of every month. Early this year it was decided to become part of the Anglican Church Women, thus embracing wider interests of Christian service. Officers elected for the coming year are: president, Mrs. G. W. Martin; vice-president, Mrs. Michael Reid; sec-

retary, Mrs. W. R. Loyd; treasurer, Mrs. Cecil Simkins. Money is raised through the Thrift Shop, now being opened each Friday from 2:30 to 4:30 p.m. in the Parish Hall, sale of Church cards; sale of greeting cards; bake sale and coffee party; flower show, tea and bake sale; sale of rags; annual bridge tournament, catering; and help with the parish bazaar. Donations from money thus raised are given to the church and parish hall and to the Primate's relief fund.

Directress of the St. Andrew's Church Altar Guild is Mrs. H. R. McClure; secretary treasurer, Mrs. Eric Tasker. Mrs. McClure and Mrs. Tasker with the assistance of eight other members look after the flowers, brasses and vestments for St. Andrew's Church.

**PAYING FOR LIGHT**  
Canadians pay \$15,000,000 a year for light bulbs.

## Order Of The Royal Purple Contributes To Medical Aid

The Order of the Royal Purple—an auxiliary to the Benevolent and Protective Order of Elks, is founded upon the principals of justice, charity, sisterly love and fidelity. The object of this Order is to promote the welfare and enhance the happiness of mankind and it enjoys the distinction of being a National Community Organization.

Kelowna Lodge No. 56 was instituted in 1940 with approximately 25 members—today we have over 100.

Many charitable donations have been made this year with the resources derived from catering, cedar chest draw and other fund raising projects.

A special fund has been set aside to furnish a room in the new wing of the hospital.

The Order of the Royal Purple also contribute to the Elks' Purple Cross fund which grants assistance to any needy child in Canada sixteen years and under who may need medical attention, surgery or any other essentials where no other help is available.

As a Centennial project the Elks and Royal Purple of Canada are planning a vocational training centre for the deaf students which is to be located in Western Canada.

A Royal Purple Day tea was held at the Elks home for many of the senior citizens of the community and a Christmas party was held for the Elks and Royal Purple children.

The outstanding event of the year was the presentation of a Life Membership to Past Honored Royal Lady Madge Armstrong who is a chartered member.

Kelowna Royal Purple Ladies were honored this year by a visit from supreme head of the Order of Canada, Supreme Honored Royal Lady Helen Johnson.

Installation of officers for the forthcoming year will be held on June 2nd at 8:00 o'clock and the public is cordially invited. 1966-67 officers have been as follows:

Honored Royal Lady Patricia Bassett, Immediate Past Honored Royal Lady, Dawn Fehr; Associate Royal Lady, Shirley Rochon, Royal Lady, Rebecca Wilson, Lecturing Lady, Marg Calvert; secretary, Sena Crossen; treasurer, Eileen Webb; conductress, Betty Schmidt; chaplain, Corrine Gergley; historian, Angie Dehnke.

Outer guard, Marion Perry; inner guard, Past Honored Royal Lady, Mary Favell; 3rd year trustee, Past Honored Royal Lady May Brennan; 2nd year trustee, Past Honored Royal Lady Marion Andrusko; 1st year trustee, Alta Sigfusson; pianist, Pauline Senger.

## Kelowna Toastmistress Club Offers Leadership Training

Kelowna Toastmistresses Club is part of an international organization to aid women in the community in self development, self expression, leadership training and parliamentary procedure.

It was chartered here in May, 1965, with the full quota of 30 members. Mrs. R. J. Stranks was the organizer and first president.

As well as opportunities in self improvement, Toastmistress provides a stimulating outlet for women from all walks of life, not only those who are meeting the public, or are active in club work. Housewives and mothers find TM an effective antidote against the dulling monotony of daily routines, and TM appeals to the women with intellectual curiosity.

New members are brought along at their own speed, starting with ice breakers of a sentence or two, and brief inspirations or Closing Thoughts. In their maiden speeches they tell something of themselves. Table topics are short, im-

promptu talks. Later, speeches will be assigned topics of five to seven minutes.

Programs vary, and offer include workshops, education and current events. Evaluation is an important part of the training process. A speech contest is held annually with the winner going on to Area contest, and, if successful, to Council, Region and International level.

Meetings are held on the first and third Wednesdays of each month at Capri Motor Inn at 8:00 p.m. Dessert and coffee are served. Special guest nights are held, but women in the community are invited to come along at any time as observers. There are several vacancies at present.

Executive for this term are: President, Miss Joyce Denley; past president, Mrs. E. R. Winter; 1st vice-president, Mrs. J. Moisey; 2nd vice-president, Mrs. J. H. Harland; recording secretary, Mrs. K. D. Bruce; corresponding secretary, Mrs. W. G. Knutson; treasurer, Mrs. W. B. Knowles.

## East Kelowna WI Began In 1928

The East Kelowna Women's Institute began in 1928. Mrs. Charles Goldsmith was the first president and Mrs. David Evans is the current head, Mrs. George Macdonnell, treasurer; Mrs. A. E. K. James, secretary; Mrs. F. Mearns, vice-president and Mrs. F. Riches, director.

The part of the community hall comprising the stage, kitchen and rest rooms, was donated by the institute to the hall board association and the contents, piano, cook stove, card tables and benches also were gifts.

The institute pays a yearly rental, although the deed allows the club one day a month and one evening a year free.

Turkey suppers are staged and the institute purchased dishes and cutlery. Cupboards were built and the institute paid to have the ladies' room painted, flooring laid and also purchased a mirror. Other items purchased include an electric stove and a used refrigerator.

The institute sponsors the 4-H Arts Club and a cup for a prize was donated. Other donations include, \$10 to the South and East pre-school kindergarten and \$10 annually to the Blossom Time Fair.

The institute's annual plant and bake sale was held on April 26, a Christmas party in January, and a luncheon meeting in February.

During the war the group sponsored the Red Cross sewing, held weekly in the community hall.

Knitting is now done for the Unitarian service. Birthday cards are sent to members, and for the past three years the club has won the Courier prize for submitting the most recipes for a cooking supplement.

# Immaculate Conception CWL Has Very Successful Year

The Catholic Women's League of the Immaculate Conception Parish completed another very successful year. The main concern for this year were the Diocesan Centennial project, subscribing to the Reference Library at Notre Dame University in Nelson, and the National Centennial project which concentrated on The Vanier Institute of the Family.

The church and community organizations received a great measure of our support. Sixteen very active circles work year-round making bazaar articles and mission supplies, convening teas, visiting the sick and shut-ins. Representatives from the League are on the John Howard executive, the Sunnyvale Home, the Lloyd-Jones Home, Mental Health auxiliary, Volunteer Bureau, and Volunteer Visitor's Service. A member also attends

the Citizenship ceremonies for new Canadians.

The Kelowna Third Girl Guide Company, and the Fifth Brownie Pack are sponsored by this Council. The Thrift Shop is manned by a group of capable ladies who donate much time and effort at renovating used clothes and proceeds from this project go toward welfare work. One of the Circles convenes our Parish Library which carries an excellent assortment of reading material for adults and children. Religious articles are also available during library hours.

In the religious field, monthly masses are offered for the living and deceased members of the League. In times of bereavement members provide a guard of honor at funerals of past members.

Charter members, past presidents, and 25-year members were honored at a Testimonial banquet on June 15.

Some 200 guest attended the dinner when Mrs. E. Davie Fulton, as guest speaker, outlined the work of the Vanier Institute of the Family of which she is a Board member.

Retiring executive for 1966-67 are: President, Mrs. Celeste Schaeffer; 1st vice-president, Mrs. Addie Cronin; 2nd vice-president, Mrs. Margaret Ratcliffe; 3rd vice-president, Mrs. Margaret Koenig; secretary, Mrs. J. H. Needham; treasurer, Mrs. L. I. Campbell.

New executive for 1967-68: President, Miss Frances Heron; 1st vice-president, Mrs. George Wambeck; 2nd vice-president, Mrs. Margaret Koenig; 3rd vice-president, Mrs. Agnes Dorsey; secretary, Mrs. Alfred Marty; treasurer, Mrs. John Olinger.

## Summerland Plans A Diabolical Trap

OTTAWA (CP)—A diabolical sex trap for moths is being developed by agriculture department scientists at Summerland, B.C.

Attractive female codling moths, held captive in the trap, lure the male of the species to his death, an agriculture department bulletin reports.

The male enters the trap hot on the scent of the female's perfume, which he can smell from a considerable distance, scientists say.

Once inside, he languishes

helplessly on a sticky coating, without ever reaching the girl moth.

The only hitch for the moth-trappers is that they must maintain colonies of young codling moths to provide the decoy females.

They are currently trying to identify her perfume, so they can make it synthetically and do away with the live bait.

**EYES ARE EVERYWHERE**  
There are 11,200,000 registered bird watchers in the United States.

### DID YOU KNOW?

SEE Page 9

## Quebec Birth Rate Continues Decline Despite Baby Bonuses

QUEBEC (CP) — Quebec's new family allowances may bring a minimeasure of relief to large families with low incomes, but population experts aren't predicting a baby boom to alter the province's dwindling birth rate.

The new family allowances, announced in the Union Nationale government's budget, are adjusted to the number of children in a family, paying \$30 a year for the first child and increasing to \$70 for the sixth and subsequent children under 16.

In his budget speech Finance Minister Paul Dozois spoke of the allowances as a welfare measure, saying the provincial government will distribute \$80,000,000 a year among 2,100,000 children in 90 per cent of Quebec's families.

The arrival on the Quebec scene of provincial baby bonuses, however, coincides with a sharp decline in Quebec's birth rate, which fell 24.7 per cent between 1959 and 1965, compared with a 21.9-per-cent drop for all of Canada.

Dr. Jacques Henripin, director of the demography department at the University of Montreal, said in an interview the new allowances will not have "any effect at all" on the Quebec birth rate.

Other demographers here said the same.

### WON'T BE OFFSET

Mr. Henripin said the allowances, which range in size from \$2.50 to \$5.63 a month per child, will not provide sufficient financial incentive to offset fundamental factors causing the birthrate decline.

Dr. Paul Parrot, demographer of the province, reported in a recent government survey that the total number of annual births declined to 120,795 in 1965 from 142,383 in 1959, a drop of 17 per cent compared with an over-all decline in Canada of 13 per cent.

These statistics have created concern inside and outside the government with some experts predicting there will eventually be an actual decrease in the Quebec population — currently estimated at 5,800,000 — which now makes up about 28 per cent of the Canadian population.

Mr. Henripin predicted the birth rate will soon level off at a point more than sufficient to ensure that there will be no decrease in Quebec's population. Quebec's birth rate decline of 24.7 per cent between 1959 and 1965, he says, compares with similar declines of 21.9 per cent in all of Canada, 20.2 per cent in Ontario, and 19.5 per cent in the United States.

### COMPARES RATE

The birth rate, calculated on the number of births per 1,000 of population in a given year, was 21.3 in Quebec in 1965, he says, compared with 21 in On-

tario, 21.4 for all of Canada and 19.4 for the U.S.

What really has been pulling the birth rate down, says Mr. Henripin, has been the tendency among Quebecers to get married later in life and the tendency among couples toward a greater spacing among children.

He does not agree with those who argue that the sharp birth-rate decline is due mainly to a reduction in the total number of children in a family, probably prompted by easy access to the birth-control pill.

He says he believes the pill may well be responsible for a gradual reduction in the size of families but its main effect is to permit better family planning rather than to reduce overall family size.

Among other pressures cited as causes of the decline in the birth rate are the high cost of housing in urban areas, the tendency of married women to quit the household for a job and the economic need for young people to remain at school longer than previously.

### SEES GOOD TREND

Dr. Parrot of the provincial department of health says there is an encouraging trend toward more marriages nowadays in Quebec. The number of marriages in 1966 exceeded by 1,375 the number of marriages in 1965.

## Two Standards For Tea Drinking

JOHANNESBURG (AP) — A double standard in South African tea drinking has been disclosed in the Johannesburg press.

Editor Dirk Richard of Dagbreek said it insults the homeland of a visiting delegate from a black country to refuse to have a social cup of tea with him.

A white man's refusal to have tea with a South African non-white is different, he held; this upholds the country's policies of race segregation.

The Star called this absurd. It commented: "South Africa is trying to improve its external relations and so must treat visiting notables with respect. But at home there can be no letup — and no tea."

The Star asserted Richard's argument should be treated with sympathy, however. It said the government party is having an agonizing reappraisal of South Africa's situation in the world.

Dagbreek supports the government while The Star opposes it.
